INTRODUCTION

The Nordiq Canada Competition Rules and Precisions 2019 edition includes the FIS International Ski Competition Rules 2018 and FIS precisions adopted in 2019 which form the basis of our Canadian rulebook.

The rules are based on the fundamental premise that they must ensure each competitor a fair and equal opportunity to win. As such, the rules impose a performance code on the competitors, the competition organizers and the officials.

Since many competitions held in Canada do not necessarily require the complexity of the FIS Rules, Nordiq Canada has inserted additional Canadian rules and precisions in boxes following the related FIS rule. This is particularly evident in situations where the many different age categories in most Canadian competitions have different requirements than the single age categories legislated by the FIS. The FIS Rules with the Canadian inserted rules and the principles embodied therein forms the Canadian Competition Rules and Precisions and as such must be followed at all events sanctioned by Nordiq Canada and its divisions.

FIS is the sanctioning body for the Open categories of NorAm and National Championship events, World Cups and Olympic Games. For these competitions the FIS Rules (without the Canadian rules and Precisions) must be followed. (A separate FIS International Ski Competition Rules Book is available on the FIS website)

Some events also have Technical Packages prepared by the sanctioning sport governing body. Technical Packages contain further guidelines for the conduct of that particular competition. They must also be consulted by the competition committee, coaches and athletes.

The 1st Section containing the CCR art.100 to 125.5.3 (General Rules for All Nordiq Canada Sanctioned Events) has been written specifically for officials, coaches and competitors involved in Canadian events sanctioned only by a Canadian sport governing body. The Appeal process for non-FIS sanctioned competitions is also included in this section. It does not contain the detail of the FIS 200 section. The 200 section still applies to Nordiq Canada sanctioned events when a particular rule has not been re-written into the 100 section.

100 General Rules for all Nordiq Canada Sanctioned Competitions

100.1 How to use this Rule Book

This 100 level section of the rules has been written specifically for events which are sanctioned by Nordiq Canada or by a Nordiq Canada Division. It follows the same guidelines as the 200 level sections of the FIS rules but has been simplified to meet the needs of Canadian competitions. Note that for FIS sanctioned competitions held in Canada, the FIS 200 level sections prevail.

All events listed in the Nordiq Canada calendar must be held under Nordiq Canada rules with the exception of Continental Cup or other events which are sanctioned by FIS but are held in Canada, in which case the FIS rules will prevail. The organizer may introduce minor modifications or simplifications to Nordiq Canada sanctioned events provided they have been approved in advance by the Nordiq Canada Events Committee or by the Technical Delegate. Rules in which the word “must” is used may not be changed by the Nordiq Canada Events Committee or by the Competition Jury in any circumstances.

100.1.1 Competitions for Para-Nordic athletes or competitions with controlled entries may be held under adapted rules, provided such rules conform with the basic principles of Cross Country Canada. All variations must be stated in the competition’s technical package. For IPC/WPNS Rules see: <http://www.paralympic.org/nordic-skiing/rules-and-regulations/rules>

100.1.2 Amendments to these rules can be requested by the Board of Directors of Nordiq Canada or the Chief Executive Officer (CEO). Such requests are presented directly to the Events Committee for review. If the Events Committee is in support of such an amendment, it will be presented to the CEO for approval at the next Board of Directors meeting.

100.5 Control

All competitions listed in the Nordiq Canada Calendar must be supervised by a Technical Delegate appointed by the appropriate sport governing association.

balance will subsequently be debited or credited to the NSA account at FIS.

202.1.3 Appointment of Race Organizer

In the event that the National Ski Association appoints a race organiser, such as an affiliated ski club, it shall do so using the form “Registration Form National Ski Association and Organiser” or by means of a similar written agreement. An application by a National Ski Association for inclusion of an event on the International Ski Calendar shall mean that the necessary agreement to organise the event has been established.

202.2 Organization of Races in other Countries

Competitions which are organised by other National Ski Associations may only be included in the FIS Calendar when the National Ski Association of the country concerned where the competitions will be organised gives its approval.

203 License to participate in FIS Races (FIS License)

A licence to participate in FIS races is issued by a National Ski Association to competitors who fulfil the criteria for participation through registering the competitor with FIS in the respective discipline(s).

203.1 The FIS licence year begins on July 1st and finishes on June 30th of the following year.

203.2 To be eligible for participation in FIS events, a competitor must have a licence issued by his National Ski Association. Such a licence shall be valid in the Northern and Southern hemispheres for the licence year only. The validity of a licence can be limited to participation in one specific country or in one or more specific events.

203.2.1 The National Ski Association must guarantee that all competitors registered with a FIS License to participate in FIS races accept the Rules of the International Ski Federation, in particular the provision which foresees the exclusive competence of the Court of Arbitration for Sport as the court of appeal in doping cases.

203.3 A National Ski Association may only issue a FIS licence to participate in FIS races when the competitor has proven his nationality and therefore eligibility by submitting a copy of his passport and signed the Athletes Declaration in the form approved by the FIS Council and returned it to his National Ski Association. All forms from under-age applicants must be counter signed by their legal guardians. Both the copy of the passport and signed Athletes Declaration must be made available to FIS on request.

203.4 During the FIS licence year, a competitor may only participate in International FIS competitions with a FIS licence to participate in FIS races issued by one National Ski Association.

203.5 Application for a change of FIS License Registration

All applications to change license registration from one member National Ski Association to another are subject to consideration by the FIS Council at its Meetings in the spring. In principle an application to change license registration will not be granted unless the competitor demonstrates his personal association with the new nation.

Prior to submitting an application to change license registration a competitor must possess the citizenship and passport of the country for which he/she wishes to compete. In addition, the competitor must have had his/her principal legal and effective place of residence in the new country for a minimum of two (2) years immediately prior to the date of the request to change registration to the new country/National Ski Association. An exemption to the two-year residency rule may be waived if the competitor was born in the territory of the new country, or whose mother or father is a national of the new country. Applications will not be accepted if a parent has obtained a passport for the new country, but is not resident, and/or there is no family ancestry. Furthermore the competitor is required to submit a detailed explanation with the application about his personal circumstances and the reason for requesting a change of license registration.

203.5.1 If a competitor has already participated in FIS calendar events for a National Ski Association, he must have the written agreement to be released from the former National Ski Association in addition to be the citizenship, passport and residency requirements in art 203.5 before the new National Ski Association may submit a request to FIS for a change of registration.

If such a written agreement is not given, the competitor may not participate in any FIS calendar events for a period of twelve months from the end of the last season in which he competed for his present National Ski Association, nor may he be issued with a license to participate in FIS races by the new National Ski Association.

These rules are also valid when a competitor has more than one nationality and would like to change National Ski Association license registration.

203.5.2 The FIS Council reserves the right in its absolute discretion, to grant or to decline to grant, a change of licence notwithstanding the fulfilment of the aforementioned conditions where it deems it is contrary to the spirit of the rule and in the best interests of the International Ski Federation to do so

(e.g. to decline to grant a change of license if a member National Ski Association tries to “import” a competitor).

- 203.5.3 In the event that a competitor does not fulfil all the criteria required to apply for a change of National Ski Association license registration, the onus shall be on the competitor to demonstrate in writing to the satisfaction of the FIS Council that such exceptional circumstances exist and it is in the best interests of the International Ski Federation to grant the change.
- 203.5.4 A competitor will retain his FIS Points if he changes his National Ski Association under the condition that the former National Ski Association granted the release of the competitor.
- 203.5.5 In the event that any of the documents for an application to change license registration submitted by the National Ski Association (letter of release from the former National Ski Association, passport, residency papers) are found to be false, the FIS Council will sanction the competitor and the new National Ski Association.

208 Exploitation of Electronic Media Rights

208.1 General Principles

208.1.1 Olympic Winter Games and FIS World Championships

All Media rights to the Olympic Winter Games and FIS World Championships belong to the IOC and to the FIS respectively, and are subject to separate contractual arrangements.

208.1.2 Rights owned by the member National Ski Associations

Each FIS affiliated National Ski Association that organises events in its country which are included in the annual FIS calendars, has the authority as the owner of the electronic media rights to enter into contracts for the sale of the electronic media rights on those events. In cases where a National Ski Association organises events outside its own country, these rules also apply, subject to bi-lateral agreement with the National Ski Association of the country where the event takes place.

208.1.3 Promotion

Contracts shall be prepared in consultation with the FIS with the intention of giving the widest promotion and exposure to the sports of skiing and snowboarding and considering the best interests of the National Ski Association.

208.1.4 Access to events

For all competitions, admission of personnel and their equipment to the media areas will be limited to those having the necessary accreditation and access passes. Priority access will be given to rights holders and the system of accreditation and access control must avoid possible abuse by non-rights holders.

208.1.5 Control by the FIS Council

The FIS Council exercises control over the adherence to the principles of this Rule by National Ski Associations and all organisers. Should a contract or individual clauses thereof, create a major conflict of interest for the FIS, a member National Ski Association or its organiser, then this will be evaluated by the FIS Council. Full information will be provided so that the appropriate solution can be found.

208.2

Definitions

In the context of this rule the following definitions will apply:

“Electronic Media Rights” means the rights for Television, Radio, Internet and Mobile devices.

“Television rights” means the distribution of television images, both analogue and digital, comprising video and sound, by means of terrestrial transmitters, satellite, cable, fibre or wire for public and private viewing on television screens. Pay-per-view, subscriptions, interactive TV, video on demand services, IPTV or similar technologies, are also included in this definition.

“Radio rights” means the distribution and reception of radio programmes, both analogue and digital, over the air, by wire or via cable to devices, both fixed and portable.

“Internet” means access to images and sound through interconnected computer networks.

“Mobile and portable devices” means the provision of images and sound through a telephone operator and receivable on mobile telephone or other non fixed devices, such as Personal Digital Assistants.

208.3

Television

208.3.1

Standard of production and promotion of competitions

In the agreements concerning production with a TV organization or agency acting as the host broadcaster, the quality of TV transmissions for ski and snowboard events published in the FIS Calendar – especially for FIS World Cup competitions - must be considered. Of particular importance, while taking into consideration applicable national laws and rules affecting broadcasting are:

- a) Top quality and optimal production of a TV signal (for live or deferred transmission depending on the event) in which sport is the centrepiece;
- b) Adequate consideration and appearance of venue advertising and event sponsors;
- c) A standard of production in conformity with the FIS TV Production Guidelines and appropriate to current market conditions for the discipline and to the level of the FIS competition series. This means live coverage of the entire event including the winner presentation for live transmission (unless circumstances determine that a live production is not provided). This coverage shall be produced in a neutral way,

shall not concentrate on any athlete or nation and shall show all competitors.

- d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information, results and international sound.
- e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.

208.3.2

Production and Technical costs

Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, the cost of producing the television signal for the exploitation of the different rights will be borne by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.

For each of the different rights granted under this rule the technical expenses that are to be paid for by those organizations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company managing the rights as applicable. This also applies to any other production costs that may be requested.

208.3.3

Short Extracts

Short extracts granting news access for non-rights holders are to be provided to television companies according to the following rules. It is noted that in a number of countries national legislation governs the showing of short extracts in news programmes.

These extracts may only be used in regularly scheduled news programmes and cannot be kept for archive purposes:

- a) In those countries where legislation exists regarding news access to sporting events then this legislation will apply for reporting on FIS events.
- b) In those countries where no legislation exists regarding news access by competing networks and provided that agreements between the company managing the rights and the primary rights holder take precedence then short extracts of a maximum of 90 seconds news access will be granted to competing networks by the agency/company managing the rights for transmission four (4) hours after the rights

holding network has shown the competition. The use of this material will cease 48 hours after the end of the competition. If the rights holding network delays its transmissions by more than 72 hours from the end of the competition, then competing networks can show extracts of a maximum of 45 seconds commencing 48 hours after and ending 72 hours after the event itself. Any requests to exploit short extracts shall be addressed to the agency/company managing the rights which shall grant to the broadcasters access to the short extracts subject to agreement regarding the technical costs incurred to receive the material.

- c) In those countries where no transmission rights have been purchased by a television company, all television organisations will be able to transmit short extracts of 45 seconds as soon as the material is available, subject to agreement with the agency/company managing the rights regarding the technical costs to be incurred to receive the material. Permission for the use of this material will expire after 48 hours.
- d) Short extracts will be produced by the host broadcaster or the agency/company managing the rights and distributed by that agency/company, taking into consideration 208.3.2 above.

208.4

Radio

The promotion of FIS events through radio programmes will be encouraged by making available accreditation to the principle radio station(s) in each interested country. Access to the venue will be granted solely to those radio organisations that have obtained the necessary contractual authorisation from the rights holder and will be only for the production of radio (audio) programmes. If accepted by national practice and the authorisation is granted, these programmes can also be distributed on the internet site of the radio station.

208.5

Internet

Unless the contract for the sale of the Electronic Media Rights on FIS events states otherwise, each television rights holder that also acquires the internet rights, will ensure that video streams from its website other than short extracts are geoblocked against access from outside its own territory. Regularly scheduled news bulletins containing material of FIS events may be streamed on the rights holding broadcaster's website provided no changes are made to the bulletin as transmitted in the original programme.

Video and audio material produced in public areas where accreditation, tickets or other permissions are not required to gain access must not contain race footage. It is recognised that new technology provides members of the public with the possibility to produce unauthorised video

- 218.2 The data and timing generated from all FIS competitions is at the disposal of FIS, the organiser, the National Ski Association and participants for use in their own publications, including websites. Use of data and timing on websites is subject to the conditions laid down in the FIS Internet Policies.
- 218.3 FIS Internet Policies and Exchange of Data relating to the FIS Competitions**
- 218.3.1 General*
As part of the ongoing promotion of skiing and snowboard, the International Ski Federation encourages and appreciates the efforts made by the National Ski Associations to provide messages and information to

their members and fans. An increasingly important medium for this provision of information is through the Internet.

The following policy has been established in order to assist National Ski Associations through the provision of data from FIS competitions, and to clarify certain conditions that relate to the use and presentation of the data from FIS competitions.

218.3.2 *FIS Calendar data*

The online FIS Calendar programme has been developed for the free use of National Ski Associations and is available in the members Section of the FIS website..

218.3.3 *Results and Standings*

National Ski Associations can obtain official results, after they have been approved by the FIS points verification procedure at the FIS Office. This data will be available on request to the FIS IT Manager who will provide the necessary instructions and/or routines on a case-by-case basis. The FIS World Cup results will include a credit to the results service providers. Standings from the various Cup series will also be available after receipt from the results service providers in the case of the FIS World Cup, or they have been input manually for other Cup series.

1. The results and data from FIS competitions may only be used on the National Ski Associations', Organisers' and participants' websites and may not be passed on for commercial use to third parties or organisations.

The National Ski Association may download the data into its' own software for evaluating performances, etc.

2. National Ski Associations who wish to display results on their website, but do not have a database structure to upload the raw data can create a link to the relevant page of the FIS website. The exact addresses can be obtained from the FIS IT Manager.
3. A link will be established from the FIS Website to all National Ski Associations with their own website, as well as the ski industry and relevant media websites on requests. A reciprocal link to the FIS website should also be created.

218.3.4 *Organizers access to results*

Organizers of FIS World Cup races can obtain official results from their races after they have been approved by the FIS points verification procedure in the results database. The upload is a computer-automated procedure for World Cup races and takes place immediately after the end of the race.

The pdf file containing the results and standings can be downloaded from www.fis-ski.com followed by the discipline code and the name of the site:

AL (Alpine), CC (Cross-Country), JP (Ski Jumping), NK (Nordic Combined); SB (Snowboarding), FS (Freestyle Skiing) etc. The individual competition can be identified by the competition codex as published on the detailed page of the calendar on www.fis-ski.com.

219 Prizes

- 219.1 The detailed rules concerning the awarding of prizes will be published by the FIS. Prizes shall consist of mementos, diplomas, cheques or cash. Prizes for records are forbidden. The FIS Council decides in the autumn on the minimum respectively maximum values of the prize money approximately one and a half years before the competition season. The organisers have to inform the FIS by October 15th of the amount.
- 219.2 If two or more competitors finish with the same time or receive the same points, they shall be given the same placing. They will be awarded the same prizes, titles or diplomas. The allocation of titles or prizes by drawing lots or by another competition is not allowed.
- 219.3 All prizes are to be awarded no later than the final day of a competition or event series.

220 Team Officials, Coaches, Service Personnel, Suppliers and Firms' Representatives

In principle these regulations apply to all disciplines, taking into consideration the special rules.

- 220.1 The Organising Committee of an event must provide the Technical Delegate with a list of suppliers and equipment service personnel accredited to the competition.
- 220.2 It is forbidden for suppliers and for persons in their service to advertise inside the restricted area or to wear clearly visible commercial markings on their clothing or equipment which do not conform with ICR art. 207.
- 220.3 Accredited service personnel and suppliers receive from the FIS an official FIS accreditation and must perform their specified function. The individual organisers are free to accredit additional company representatives or other important persons.
- 220.4 All accredited service personnel, suppliers and other persons who have the official FIS accreditation or a special accreditation from the organiser for course or jumping-hill have access to the courses and jumping-hills (according to special rules of the discipline).

221 Medical Services, Examinations and Doping

- 221.1 National Ski Associations are responsible for the fitness of their competitors to race. All competitors, male and female are required to undergo a thorough evaluation of their medical health. This evaluation is to be conducted within the competitor's own nation.
- 221.2 If requested by the FIS Medical Committee or its representative, competitors must undergo a medical examination before or after the competition.
- 221.3 Doping is forbidden. Any offence under these FIS Anti Doping Rules will be punished under the provisions of the FIS Anti-Doping Rules.
- 221.4 Doping controls may be carried out at any FIS competition (as well as out-of competition). Rules and procedures are published in the FIS Anti-Doping Rules and FIS Procedural Guidelines.

221.5 Gender of the Competitor

If any question or protest arises as to the gender of the competitor, FIS shall assume responsibility for taking the necessary steps to determine the gender of the competitor.

221.6 Medical Services Required from Event Organisers

The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:

- The size and level of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.)
- The estimated number of competitors, support staff and spectators

- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined.

The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required rescue facilities are in place before starting the official training or competition. In the event of an incident, the backup plan must be in place before recommencing the official training or competition.

The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the FIS Medical Guide containing Medical Rules and Guidelines.

222 Competition Equipment

- 222.1 A competitor may only take part in a FIS competition with equipment which conforms to the FIS Regulations. A competitor is responsible for the equipment that he uses (skis, snowboard, bindings, ski boots, suit, etc). It is his duty to check that the equipment he uses conforms to the FIS specifications and general safety requirements and is in working order.
- 222.2 The term competition equipment encompasses all items of equipment which the competitor uses in competitions. This includes clothing as well as apparatus with technical functions. The entire competition equipment forms a functional unit.
- 222.3 All new developments in the field of competition equipment must be approved in principle by the FIS.
The FIS does not take any responsibility for the approval of new technical developments, which at the time of introduction may contain unknown risk to the health or cause an increase in the risk of accidents.
- 222.4 New developments must be submitted by May 1st, at the latest, for the following season. The first year new developments can only be approved provisionally for the following season and must be finally confirmed prior to the subsequent competition season.
- 222.5 The Committee for Competition Equipment publishes equipment by-laws after approval by the FIS Council (definitions or descriptions of the equipment items which are allowed).
In principle unnatural or artificial aids which modify the performance of the competitors and/or constitute a technical correction of the individual's physical predisposition to a defective performance, as well as competition equipment which impact the health of the competitors or increase the risk of accidents are to be excluded.

222.6 Controls

Before and during the competition season or on submission of protests to the Technical Delegate at the competition concerned, various controls can be carried out by members of the Committee for Competition Equipment or official FIS Equipment Controllers. Should there be a well-founded suspicion that regulations were violated, the equipment items must be confiscated immediately by the controllers or Technical Delegates in the presence of witnesses and be forwarded sealed to the FIS, which will submit the items to a final control by an officially recognised institution. In cases of protest against items of the competition equipment, the losing party will bear the investigation costs.

No testing of equipment or material in independent laboratories may be requested at races where a FIS Technical Expert has performed the controls, unless it can be demonstrated that the controls have not been carried out according to the rules.

- 222.6.1 At all FIS events where official FIS measurement experts using the official FIS measurement tools are appointed, the result of measurements carried out at the time are valid and final, irrespective of previous measurements.

niques without a gliding phase. In diagonal technique a maximum of one pole is in the ground at any time.

310.2.2.3 Turning techniques are comprised of steps with the inner ski and pushes with the outer ski in order to change skiing directions. The sections of the course where turning techniques are allowed must be clearly marked.

310.2.2.4 Where there are one or more set tracks, repeatedly changing or stepping in and out of tracks is not allowed.

310.3 The Programs for OWG, WSC, JWSC, WC and FIS Competitions

310.3.1 OWG and WSC

310.3.1.1 For the OWG and the WSC competitions, the program is

	Ladies	1.0 – 1.8 km C/F

NOTE: Techniques (C/F) will alternate between OWG and WSC, as well as between Individual and Team Sprint competitions, and between Interval Start and Mass Start competitions.

The composition of the program can change due to the fact that there are more competition days available during the OWG than at WSC. The TV coverage will be a major factor in these considerations.

Skiathlon will always be conducted with classical technique first and then free technique.

The Relay competitions will be conducted using two legs classical first and then two free technique legs.

310.3.1.2 At WSC a qualification competition will be scheduled for the athletes who did not reach the entry requirements (check the WSC Rules).

310.3.2 **World Cup**

The program for the World Cup season is determined by the FIS every year. Distances and techniques are decided annually. To be able to support development of the Cross-Country sport, test competitions can be a part of the WC program. Long distance competitions may be included.

310.3.3 **JWSC**

For JWSC competitions the formats, distances and techniques will be

	Ladies	Men
Interval Start	5 km F/C*	10 km F/C*
Mass Start	15 C/F	30 C/ F
Sprint	1.0 – 1.8 km C/F*	1 – 1.8 km C/F*
Relay	4 x 3.3 km C/F	4 x 5 km C/F

* Interval Start and Sprint competitions will alternate techniques each year.

	Ladies	Men
Interval Start	10 km F/C*	15 km F/C*
Mass Start	15 C/F	30 C/F
Sprint	1 – 1.8 km C/F*	1 – 1.8 km C/F*

* Interval Start and Sprint competitions will alternate techniques each year.

Sprint and Mass Start competitions will be held in the same technique.

311 Cross-Country Competition Courses

311.1 **Fundamental Characteristics**

311.1.1 Cross-Country courses must be laid out so that they provide a technical, tactical and physical test of the competitors' qualifications. The degree of difficulty should be in accordance with the level of the competition. The course should be laid out as naturally as possible to avoid any monotony, with rolling undulating sections, climbs, and downhill sections.

Rhythm should not be broken by too many sharp changes in direction or steep climbs. The downhill sections must be laid out so that they create a

challenge to the competitors. At the same time it should be possible to ski the course even under fast conditions.

311.1.2 *In principle, the Cross-Country course should consist of*

- One third up hills defined as climbs with a gradient between 9% (1:11) and 18% (1:5.5) with height differences over 10 meters plus some short climbs steeper than 18%.
- One third undulating, rolling terrain, utilizing all terrain features with short climbs and downhill (with height differences of 1-9 meters).
- One third varied downhill, demanding versatile downhill techniques.

311.1.3 At OWG, WSC, JWSC, WC and COC Cross-Country competitions the courses may only be used in the direction established in the homologation certificates.

311.1.4 A test area should be prepared and clearly marked along or near the competition course.

311.1.5 Warm up courses should be prepared as close as possible to the stadium.

311.2 The Homologation

311.2.1 All FIS Cross-Country competitions should be carried out on homologated courses. Exceptions are: popular competitions, Rollerskiing competitions, substitute courses if approved by the TD. The details on homologation procedure are described in FIS Cross Country homologation manual.

311.2.2 In competitions designed for CC sport promotion it is possible to use courses outside of the homologation standards providing they have been approved by the Sub-Committee for Rules and Control.

311.2.3 The Organizer must supply copies of the approved course maps and the homologation certificate to its TD. A graduated scale and a north direction arrow must be included.

311.2.4 Definitions

311.2.4.1 HD (height difference) is the difference in height between the lowest and highest points of a competition course.

311.2.4.2 MC (Maximum climb) is the climb with the highest partial total climb PTC), in other terms, the biggest uphill. The uphill can be interrupted by a section of undulating terrain that does not exceed 150 m in length or a downhill that does not exceed 10 m PHD.

311.2.4.3 TC (Total climb) represents a total of all climbs on the course.

311.2.5 Norms for Cross-Country courses.

*For Canadian competitions: The height differences, maximum climbs, and total climb norms stated below are considered guidelines for designing courses. Therefore, these limits may be exceeded in competitions to take into consideration that there is often more than one category competing on the same course. In these situations, the younger age categories should be run on courses at the lower limit of the older category guidelines.
For Canadian Homologation Guidelines visit: <http://cccski.com/Events/Rules-and-Regulations.aspx>*

The HD, TC and MC of the FIS homologated competition courses should be within the following norms:

Course distance (loop length)	Minimum climb (in PHD m) ²	HD	MC (in PTC m)	TC
Sprint F		Max. 50m	0 – 30 m	0 – 60 m
Sprint C	➤ 15 m	Max. 50m	15 – 40 m	20 – 60 m
2.5 km	1 climb > 15 m	Max. 50 m	25 – 50 m	75 – 105 m
3.3 km	1 climb > 25 m	Max. 65 m	25 – 65 m	100 – 140 m
3.75 km	1 climb > 30 m	Max. 80 m	30 – 80 m	110 – 160 m
5 km	1 climb > 30 m	Max. 100 m	30 – 80 m	150 – 210 m
7.5 km	2 climbs > 30 m	Max. 125 m	30 – 80 m	200 – 315 m
8.3 km	3 climbs > 30 m	Max. 125 m	30 – 80 m	210 – 330 m
10 km	3 climbs > 30 m	Max 125 M	30 – 80 m	250 – 420 m

Longer loops should follow the same principles.

²A climb is defined as an uphill with a gradient from 9 – 18%, broken up with short undulating sections less than 150 meters in length, steep uphill = 4m <PHD< 10m, gradient > 18%, or a downhill that does not exceed 10 m partial height difference (PHD). The average gradient of the climb, including undulating terrain and downhill sections must be 6 – 14%.

Longer loops should follow the same principles.

Height Difference (HD) For Canadian Competitions:

311.2.6 Course width categories

Course widths for particular race formats should follow the following table:

Category	Minimum course width			Used for
	Uphills	Undulated terrain	Downhills	
A	3 m	3 m	3 m	Interval Start C
B	4 m	4 m	4 m	Interval Start F Relay C
C	6 m	6 m	6 m	Mass Start C

Category	Minimum course width			Used for
	Uphills	Undulated terrain	Downhills	
				Skiathlon C part Pursuit C Relay F Sprint C Team sprint C
D	9 m	7.5 m	6 m	Mass Start F Skiathlon F part Pursuit F Sprint F Team sprint F
E	12 m	9 m	6 m	Skiathlon (when both techniques are used on the same course)

- 311.2.6.1 It is possible to use a lower category course for a particular format at COC or FIS level competitions providing it is approved by the TD. The number and level of competitors must be considered.
- 311.2.7 At OWG, WSC, JWSC and WC competitions, the highest point of a cross-country course should not exceed 1800 m.
- 311.2.8 For Continental Cup (COC) courses above 1800 m elevation, the requirements for MC and TC in table 311.2.5 can be reduced by 20%.

For Canadian competitions:

All sites hosting National Championship, Continental Cup and Canada Winter Games competitions must have homologated courses for the open classes.

Nordiq Canada will adopt the general philosophy and principles for homologation as set out in Article 311.2.8 and in accordance with the practical interpretations found in the FIS Homologation Guidelines for Inspectors and the Nordiq Canada Homologation Guidelines.

The required length for a homologated Cross-Country course should not exceed the official course distance by more than 10% or must not be more than 5% shorter (meaning that a 5 km course should not be longer than 5.5 km or cannot be shorter than 4.75 km).

- 311.2.9 At OWG, WSC, JWSC/U23 and WC, the minimum lap length for interval start competitions of distances 10 km or longer should be 5 km.

311.3 Preparation of the Course

311.3.1 Pre-Season Preparation

Rocks, stones, roots, stumps, brush and similar obstacles should be re-moved. The courses must be prepared before the winter so that they

can be raced even with very little snow. Sections of the course that have drainage problems must be corrected. The summer preparations should be of a standard which allows for carrying out of competitions with approximately 30 cm of snow. Special attention must be given to downhill sections and the need for banking the curves.

311.3.2 General Preparation for the competition

311.3.2.1 The course should be completely prepared with mechanical equipment. If heavy machines are used, they should follow the original configuration of the ground as much as possible in order to preserve the undulations of the terrain.

311.3.2.2 The course must be prepared to the recommended width according to the Homologation Manual and the competition format (see ICR articles section C). The course must be prepared so that competitors can ski and pass unobstructed. On slopes where the courses traverse, they must be wide enough to allow for good preparation.

311.3.2.3 The courses and the warmup tracks must be completely prepared before the official training, correctly marked and with the kilometer signs in place. The testing tracks should have the same preparation as the competition course.

311.3.2.4 The same conditions must be ensured for all competitors during the competition. If it is snowing or blowing hard, a sufficient number of qualified forerunners and/or especially equipped patrols must be available and utilized in order to maintain constant conditions. An action plan has to be prepared in cooperation with the Jury.

311.3.2.5 All use of artificial means in order to improve the glide on the snow are forbidden. In special cases use of chemicals to prevent a soft surface is allowed.

311.3.3 Preparation for Classical Technique

311.3.3.1 The number of tracks will be decided by the jury according to the length, the width, the profile of the course to the competition format (see ICR articles section C).

311.3.3.2 The tracks should be in general set along the ideal skiing line of the competition course. The track is normally set in the middle of the course except through curves.

311.3.3.3 In curves there should only be set track where the skis can glide unrestrained in the set track. Where the curves are too sharp and the speed is considered to be too high for the skier to stay in the track, the track should be removed. In curves the track is to be set close to the fence to avoid the possibility to ski between the track and the edge of the course.

- 311.3.3.4 To decide the proper course preparation and track setting, the best competitors and highest possible speed must be taken into consideration.
- 311.3.3.5 The ski tracks must be prepared so that ski control and gliding are possible without a lateral braking effect by any parts of the bindings. The two tracks should be set 17-30 cm apart, measured from the middle of each track. The depth of the track should be 2-5 cm, even in hard or frozen snow.
- 311.3.3.6 Where two or more tracks are used, they should be a minimum 1.20 meter apart measured from the middle of each pair of tracks.
- 311.3.4 Preparation for Free Technique
 - 311.3.4.1 The course must be well-packed the entire width. The width of the course should be suitable with the competition format (see ICR articles section C)
 - 311.3.4.2 The jury determines where and how tracks will be set in the downhills.

311.4 Marking the Course

- 311.4.1 The marking of the course must be so clear that the competitor is never in doubt where the course goes. Hard material course markings and commercial markings should only be placed at the sides of the course.
- 311.4.2 Kilometer signs should mark the accumulated distance skied along the course.
- 311.4.3 Forks and intersections on the course must be clearly marked by visible signage, and fences or V-boards must be placed across unused parts of the course.

311.5 Refreshment Stations

- 311.5.1 The OC must at a minimum provide a refreshment station (in the finish area).
- 311.5.2 The jury decides on positions or limitations on feeding stations on the competition course.

311.6 Training and Inspection of the Course

- 311.6.1 Competitors and team officials should be given the opportunity to train and inspect the course in competition conditions. When possible, the course should be open two days before the competition. The Jury may close the course or limit the use of the course to certain sections or hours.

For Canadian competitions: Competitors must be given an opportunity to train on and inspect the course in racing condition. In Canadian domestic races, the course must be open at least one day prior to the race. At National Championships, the course must be open at least two days before the race. Only in exceptional circumstances may the TD close the course or limit access to certain sections during certain hours. During official training, the course must be prepared and marked as it will be during the event.

312 The Cross-Country Stadium

312.1 Stadium Area

312.1.1 A Cross-Country stadium has to be prepared with a well-designed start/finish area.

312.1.2 The stadium arrangement should provide a functional entity divided and controlled as necessary by gates, fences and marked zones. It must be prepared in such a way that

- the competitors may pass through it several times,
- competitors, officials, media, service people and spectators may reach their respective areas easily,
- there is enough space to carry out all competition formats.

312.2 Start Zone

312.2.1 The first 50 m will be the start zone. This zone may be separated into corridors and classical tracks may be set. The number, width and length of corridors will be determined by the jury according to the competition formats (see ICR articles section C) and the stadium layout.

312.2.2 The starting positions will be set according to the competition formats (see ICR articles section C).

312.3 Finish Zone

312.3.1 The last straight 50 to 100 m will be the finish zone. This zone is normally separated into corridors. They must be clearly marked and highly visible but not interfering with the skis. The Corridors should be as long as possible. The number, width and length of corridors will be determined by the jury according to the competition formats (see ICR articles section C) and the stadium layout.

312.3.2 The finish line must be clearly marked with a colored line. The width of the finish line is maximum 10 cm.

312.4 Exchange zone

312.4.1 In team events, the exchange zone should be sufficiently wide and long, clearly marked and located on flat or smoothly rising ground in the stadium.

312.4.2 The size (length and width) should be adapted to the competition formats (see also ICR articles section C) and the available space in the stadium.

312.5 Pit boxes

- 312.5.1 When ski exchange is allowed, the pit box area must be designed so that each competitor has a designated box marked by his/her bib number and an exit is provided that minimizes any chance for interference. A bypass corridor must be provided so that any competitors who do not enter their pit boxes will have the shortest skiing distance past this ski exchange area.

312.6 Working Conditions

- 312.6.1 Competition officials, Jury members, Coaches, media and service people must have proper working zones within the stadium area so that they can work without disturbing the process of start and finish. The access of these persons to the stadium area must be controlled.
- 312.6.2 Timekeeping and calculation should be located in a building with a good view of the start and finish.
- 312.6.3 At OWG, WSC, JWSC, WC and COC competitions, FIS officials and Jury members must be provided a working room with a good view of the stadium, and in the immediate vicinity of the stadium.
- 312.6.4 A heated room must be provided for the medical office near the stadium.

312.7 Additional Facilities

- 312.7.1 In the immediate vicinity of the stadium at OWG, WSC, JWSC and WC a controlled (with fences or manual control) team preparation area with wax cabins and space for wax trucks must be installed. The cabins must be heated and well ventilated using forced air exchangers. Additional rules may apply for OWG, WSC, JWSC, and WC.
- 312.7.2 Toilets and washrooms must be installed for competitors near the stadium. They must be easily reached from the start area.

312.8 Current Information Facilities

- 312.8.1 A notice board showing results, important information from the OC and the Jury, and the air and snow temperature should be located close to the wax cabins and the stadium. The temperatures must be displayed for the following times: two hours before the start, one hour before the start, one-half hour before the start, at the start, one-half hour after the start, one hour after the start.
- 312.8.2 Temperature measurements must be taken in the stadium area and at places where extreme temperatures (low point, high point) can be expected.
- 312.8.3 Loudspeakers must be used for announcing the competition and important information.

- 312.8.4 In order to inform international competitors, trainers, spectators, English language must be used.

313 Official Entries for the Organizer

313.1 Procedure

- 313.1.1 Official entry forms must be sent by the Organizer to all relevant Nations in an electronic or paper form. An online registration process can also be provided.
- 313.1.2 As a minimum, the required data fields shown in the Official FIS Entry Form must be included.
- 313.1.3 For WC this entry process will be determined by the FIS Cross-Country Committee.

313.2 Receiving official entry information for a specific competition

- 313.2.1 Official entries and grouping information (when required) must be received and checked by the competition secretary latest two hours before the Team Captains' meeting.
- 313.2.2 If grouping will be used to determine the starting order, then the competition secretary will use the order of the written entry to assign the competitors into groups unless other specific instructions are provided.
- 313.2.3 When the starting order will be determined according to the FIS points, the Competition Secretary will be required to compile the current point values for each competitor within the valid points list.

313.3 Late Entries

- 313.3.1 Late entries can be admitted by the Jury before the draw.
- 313.3.2 Late entries are not admitted after the draw.

313.4 Substitution

- 313.4.1 After the draw a competitor can only be substituted if he can not start due to force majeure (injury, illness, etc.) and if the jury permits the substitution. This has to be certified by a medical doctor and communicated to the jury until 2 hours before the start.
- 313.4.2 In the event of an accident during warming up the Jury can permit a substitution up to the start of the competition if the accident is reported to and certified by the Medical Doctor or Medical Service of the OC.
- 313.4.3 If the withdrawn competitor was selected for doping control then this test must still be carried out and must also be carried out on the substitute

competitor. If the withdrawn competitor produces a positive test, no substitute will be allowed.

313.4.4 The starting position of the substitute competitor will be according to ICR articles section C “competition format’s“

313.4.5 Competitors, who are on the starting list and cannot take part in the competition because of illness or other reasons, must be reported by the team captain to the competition secretary at latest 30 min. before the start. If any of these competitors were selected for doping control, they must still be tested.

313.5 Grouping

313.5.1 If grouping is used to determine the starting order, the Team Captain must distribute his/her competitors evenly within the groups. This must be done latest 2 hours before the draw. If a nation enters more competitors than there are groups, the extra competitors must be distributed among the groups, one per group, at the option of the Team Captain. This rule also holds for teams with fewer competitors than groups.

Example:

Teams:		Groups:			
		I	II	III	IV
Team A	8 entries	2	2	2	2
Team B	6 entries	1	2	1	2
Team C	3 entries	1	-	1	1

313.5.2 With 20 competitors or less, use groups I and II; with 21 - 40 competitors, use groups I, II and III; with more than 40 competitors, use all four groups.

For Canadian competitions: In events where participants do not hold a current National License, these participants will be treated as an additional group above and beyond the number of groups required by the size of the entry. This additional group will be drawn as one group regardless of size.

314 Starting Order

314.1 Principles

314.1.1 The start list can be created with a draw, using a point system, a cup standing, a stage event overall standing, a qualification system or other methods.

314.2 Draw

314.2.1 Manual and computer methods are allowed for the draw.

- 314.2.2 The draw is carried out by using a random double selection.
- 314.2.3 If grouping is used, the start numbers will be drawn within each group. The normal starting order of the groups will be I, II, III and IV. The grouping of the competitors cannot be changed during the draw.
- 314.2.4 If a competition has to be postponed to a different date, the draw must be repeated (ICR art. 217.6).
- 314.2.5 It is possible to have the draw conducted before the Team Captains' meeting under the supervision of the Jury.

314.3 Manual Draw

- 314.3.1 In this method, each competitor receives one number from a sequence determined by the number of competitors in his group (for instance, 23 competitors in the group, the competitor is assigned a number between 1 and 23). In the first random selection, one of the numbers 1-23, is drawn. At the same time, a start number that has been assigned to that group is drawn (for example, group II with 23 competitors will race with bibs 45-67 inclusive). This number that is drawn is the start number for the competitor whose number was drawn in the first random selection. For both random selections, balls with the appropriate numbers on them are usually drawn by hand from a closed box or container. After the two balls are drawn, the nameplates of the competitors are transferred from the board with the grouping to the board with the starting order.

314.4 Computer Draw

- 314.4.1 The computer draw procedures must be inspected by a member of the Jury In order to validate the process.
- 314.4.2 This method requires that the names and the grouping of the competitors will be entered into the computer. The program provides at least four stages of output on the monitor.
1. The list with the registered competitors and their sequential numbers within a group appears on the monitor.
 2. The computer randomly selects the name of one competitor and displays it on the monitor.
 3. The computer randomly selects a start number for this competitor. The start number and the name of the competitor now appear on the monitor.
 4. The monitor then shows the start list order with this competitor listed.

314.5 Using a Points System to Determine the Starting Order

- 314.5.1 The starting order can be made on the basis of the FIS Points; overall list, distance list or sprint list.

- 314.5.2 Refer to the Rules and Guidelines of the FIS Points to determine valid lists.

For Canadian competitions: Grouping will be made according to the Distance or Sprint Canadian Points List (CPL) unless the race organizers specifically state otherwise in the Race Notice.

314.6 Seeded Group

- 314.6.1 The Seeded Group is an exception and is composed with the best athletes entered in a competition. The seeded group can be determined according to the FIS points, to a current Cup Standing or a current stage event standing.
- 314.6.2 All competitors who are eligible to be in the Seeded Group must start the competition within the Seeded Group.
- 314.6.3 The starting position of the seeded group will be determined for each different competition formats by the jury according to the specific competition rules. As a principle, the seeded group should start with the most advantageous position.

314.7 Bibs (Start Numbers)

314.7.1 Design

Start numbers must be readable from the back and the front. They must not hinder the competitor in any way. The size, the shape and the method of attachment cannot be changed. The Organizer is responsible for obtaining practical start numbers. Start numbers used in sprints and in competitions with Pursuit Start or Mass Start should also have numbers on both sides under the arms; this is also possible for other competitions

314.7.2 Leg Numbers

- 314.7.2.1 For Mass Start, Skiathlon, Pursuit, Individual Sprints competitions it is required to affix start numbers to the competitor's leg that is closest to the finish line camera.
- 314.7.2.2 For Team Sprint and Relay competitions it is required to affix start numbers to the finishing competitor's leg that is closest to the finish line camera.

314.8 Start List

- 314.8.1 Start lists must contain the starting order of competitors, their start numbers, years of births, respective FIS points, start time(s), the technical details of the course length, HD, MC, TC, number of participating nations and composition of the jury.

315 Start Procedures

315.1 Types of Starts

315.1.1 For competitions on the International Calendar, Interval Start, Mass Start, Pursuit Start, and Heat Start will be used.

315.2 Interval Start Procedure

315.2.1 Interval Starts will normally use half-minute intervals and fifteen seconds for sprint qualifying round. The jury may approve shorter or longer intervals.

315.2.2 The start command consists of a countdown starting 5 seconds before the start time ("5-4-3-2-1") and start signal ("GO!"). The command can be given verbally or by audible signals.

315.2.3 The competitor must have his feet behind the start. The poles must be placed in front of the starting line and/or starting gate.

315.2.4 The competitor may start any time between three seconds before and three seconds after the start signal. If he/she starts more than three seconds before the start signal, it is a false start. If he/she starts more than three seconds after the start signal, it is late start and the start list time will count.

In Canadian events where no start gate is used, the competitor may not start until the start signal has been given.

315.2.5 A competitor who starts late must not interfere with the start of others.

315.2.6 With both electric and hand-timing, the competitor's actual start time must be noted in case the Jury decides his late start was due to force majeure.

315.2.7 Example of start lists for Interval Start can be found at: <http://medias4.fis-ski.com/pdf/2017/CC/2228/2017CC2228SL.pdf>

315.3 Mass Start Procedure

315.3.1 The Mass Start should be carried out using angled start lines in shape of an arrow. This means that the athlete with start number 1 has the most favorable start position followed by start number 2 etc. Each competitor should be separated by a fixed distance interval.

Number one will be in the middle position; even numbers are placed on the right and odd numbers on the left side of the arrow. The numbering mark should be placed to the right or in the middle of the track.

315.3.2 The Jury shall decide whether to set classic tracks in the start grid.

315.3.3 The starting procedures for a Mass Start will begin two minutes before the start signal. At this time instructions about the start will be given to all competitors assembled in their start lanes. These instructions should end with the competitors being instructed to stand at their start positions and a **“one minute to start warning”** is given. Next there will be the command **“30 seconds to start”**. When all competitors are motionless then the next sound will be the **start command or signal**.

315.3.4 If the start grid is set with classic tracks then competitors must only use classic technique and are not allowed to leave their assigned tracks between their start positions and end of the marked corridors over the first 15-50 meters after the start line.

315.3.5 Example of start lists for Mass Start can be found at: <http://medias3.fis-ski.com/pdf/2017/CC/2267/2017CC2267SL.pdf>

315.4 Pursuit Start Procedure

315.4.1 The starting order and intervals are set according the results of a first competition or a stage event current overall standing. The tenths of seconds will be deleted to establish the start list.

Rank	Name	Country	Final
1	SVENSSON, Lars	SWE	25:12.9
2	ARKJANOW, Nikolai	RUS	25:14.2
3	KRECEK, Jan	CZE	25:21.7

The start list should be prepared according to the following example:

Start number	Name	Country	Start time
1	SVENSSON, Lars	SWE	0:00

315.4.2 In order to avoid overlapping or competition taking too long, the Jury may allow a Mass or Heat Start for the late starting competitors. The Jury is also allowed to reduce the number of starting competitors.

315.4.3 The Pursuit Start is carried out without an electronic start gate. A video camera should be used to record the entire start such that a review by the Jury can be done.

315.4.4 In order to guarantee an exact start, a large display clock must be used for each starting lane together with bib number and starting times for respective competitors for that lane. The start must be prepared so that two or more competitors may start side by side.

315.4.5 Competitors are not allowed to change corridors within the marked corridor area after the start line.

315.4.6 Example of a start list for Pursuit competition can be found at:
<http://medias2.fis-ski.com/pdf/2017/CC/3033/2017CC3033SL.pdf>

315.5 Heat Start procedure

315.5.1 The start area is prepared with a start line and a pre-start line that are 1 meter apart.

315.5.2 Electronic and/or mechanical start gates can be used if approved by the jury.

315.5.2.1 Use of start gates are mandatory at OWG, WSC, WC and JWSC competitions.

315.5.3 Competitors are organized on the pre-start line where instructions are given and start lanes designated. The starter will give the command “**take your start positions**” and the competitors advance to the start line. When all competitors are at the start line the starter will give the command “**Set**” and all competitors must remain motionless until the starter gives the **start signal**. 315.5.4 Starts that do not use gates follow the same principles and procedures as stated above.

315.5.5 Competitors must use classical technique and are not allowed to leave their assigned tracks within the marked corridors over the first 10-15m after the start line.

315.5.6 An example of a start list for Heat Starts can be found at:
<http://medias3.fis-ski.com/pdf/2017/CC/2221/2017CC2221SL.pdf>

315.6 Duties of the Start Officials

315.6.1 Start officials must provide all competitors with the opportunity to start at their correct times. An assistant must be placed near the starter and is responsible for recording the details for any violations at the start.

315.7 False Start Consequences

315.7.1 For competitions using Interval Start or Pursuit Start procedures a competitor who makes a false start will not be recalled to the start line. False start infractions must be reported to the jury.

315.7.2 For all competitions using a Mass Start or Heat Start procedures, any false start will result in a “restart” of the competition. The starter or the start gate must give a false start signal. There must be assistants placed an effective distance down the tracks where it is possible to turn the competitors back.

315.8 Marking of Skis

315.8.1 Ski marking will not be used unless requested in advance by the sanctioning body of the competition. For purposes of control, both skis are

marked shortly before the start. The competitor must come to the official marking place in person and in due time wearing his starting bib.

315.9 Temperature

If the temperature is below -20° C, measured at the coldest point of the course, a competition will be postponed or cancelled by the Jury. With difficult weather conditions (e.g., strong wind, high air humidity, heavy snowfall, or high temperature) the Jury may, in consultation with the Team Captains of the participating teams and the Chief of Medical and Rescue Services responsible for the competition, postpone or cancel the competition.

For Canadian competitions: With air temperatures below -20°C (temperature measured at the coldest point of the course and without wind factor) and competition distances less than or equal to 15 km, the Jury must postpone or cancel the competition. With competition distances greater than 15 km and temperature less than -18°C without wind factor, the Jury must postpone or cancel the competition.

For U8 and U10 age groups, with air temperatures below -15C (temperature measured at the coldest part of the course and without a wind factor), the Jury must postpone or cancel the competition.

With any difficult weather conditions (e.g. strong winds, high air humidity, heavy snow, icy track conditions) at any air temperature, the Jury may, on consultation with the Team Leaders of the participating teams and the doctor responsible for the competition, postpone, cancel or shorten the competition.

316 Timing

316.1 For all competitions listed in the FIS Calendar, electronic timekeeping must be used. Electronic timing will always be supplemented by hand-timing as a backup system and the results cross-checked between the two systems.

316.2 If the electronic timing temporarily fails hand times will be used by correcting the average time difference which develops between the electronic timing and the hand-timing. If the electronic timing fails frequently or completely during the competition, the hand times will be used for all the competitors. When hand times are used to calculate results, the actual start times must be used.

316.3 When using hand-timing, the time is taken when the competitor's first foot crosses the finish line.

316.4 Electronic Timing

316.4.1 *The following electronic timing technologies can be used to identify the official finish times:*

- Electronic timing system based on photocells. The measuring point of the light or photo barrier must be at a height of 25 cm above the snow surface
- Photo finish system. The measuring point will be the toe of the first boot meeting the finish line.

316.4.2 *Transponder Timekeeping*

Transponders (active systems) can be used as a supporting system to the official timing system to determine race times and ranking sequences at intermediate timing points, pre-timing points and finish (unofficial results).

The official result must be confirmed by using electronic timing systems in accordance with ICR 316.4.1

316.5 In the case of competitors falling as they cross the finish line, the competitors will be assigned their finish time as per articles 316.3 or 316.4 if all the parts of their bodies are moved across the finish line without any outside assistance.

316.6 For the calculation of results all start and finish times will be recorded to at least 1/100 (0.01) precision. The calculated net time for each competitor is determined by subtracting the recorded start time from the recorded finish time. The final result for each skier will be determined to 1/10 (0.1) precision by truncating the calculated net time. For example, 38:24.38 becomes 38:24.3.

316.7 During the OWG, WSC, JWSC and WC, photo finish cameras must be used.

316.8 The finish referee is responsible for keeping a list of the order in which the competitors cross the finish line. He gives this list to the chief of timekeeping.

316.9 An electronic timing report for every FIS race must be transmitted to FIS.

317 Results

317.1 Calculation of Results

317.1.1 The results are calculated by taking the difference between the finish and start times. In a stage event competition, the actual time, bonus seconds and time penalties from each stage are accumulated.

317.1.2 The ranking of athletes involved in a photo finish will be established according to the order they crossed the vertical plane of the finish line by the toe of the front foot.

317.2 Publication of Results

- 317.2.1 The unofficial result list will be posted on the official notice board as soon as possible after the competition, with the time of its publication noted.
- 317.2.2 The official result list must contain the final order of the competitors, their FIS codes, starting number, times, intermediate times, competition points, skiing technique, the number of competitors, names of the competitors who started but did not finish, any written sanctions to the competitors, the technical details of the course; length, HD, MC, TC, the weather, temperature data, number of competitors (entered, ranked, DNS and DNF), number of participating nations and the composition of the Jury.
- Examples can be found on the FIS Website Cross-Country and through the FIS Nordic Office.
- 317.2.3 In countries where the Latin alphabet is not used, information and results should also be given in Latin characters.
- 317.2.4 The competition secretary and the TD sign the official result list and certify that it is correct.
- 317.2.5 All official results must also be electronically transmitted to FIS in XML format.

324.5 Timing and Results

324.5.1 The calculation of the final times in a pursuit competition will be done by combining the results (actual skiing time) in the previous race without the tenths of a second with the final results of the second race with the tenths of a second. For competitions that use the Pursuit Start method the order of finish determines the final ranking.

324.5.2 Overlapping Rules normally apply. For skiers who are lapped refer to ICR art. 343.14.

324.6 Jury and protests

No specific rules.

325. Individual Sprint Competitions

325.1 Definition

325.2.3 Sections of the course must be designed straight, wide and long enough to make overtaking possible.

325.3 Entries – Substitution

325.3.1 Substitution is possible before qualification according to ICR art. 313.4

325.3.2 The substitute athlete's start position will be determined by the jury.

325.4 Starting Order and Start Procedure

325.4.1 Qualification

325.4.1.1 Interval Start procedure must be used (see ICR art. 315.2). Start intervals can be 10, 15, 20 or 30 seconds.

325.4.1.2 If two laps are used an interval block start can be used.

325.4.1.3 In case of equal qualification times, the competitors who will be advancing to the quarterfinals will be ranked according to their FIS sprint points on the qualification results. If a tie remains, then the positions are determined by a draw. The tie in qualification results will not change maximum number of qualified competitors (30 / 24 / 16). Competitors with the same qualification time who did not advance to the quarterfinals will have the same ranking on this result list.

325.4.2 Finals Heats (Quarterfinals, Semi-finals, and Finals)

325.4.2.1 Heat Start procedure must be used (see ICR art. 315.5)

325.4.2.2 In OWG, WSC, WC heats will include quarterfinals, semi-finals and the A-Final. In other competitions the heats will be decided by the organizer including the addition of a B-Final.

325.4.2.3

The starting positions are chosen by the athletes according to the following order:

- Quarterfinals – qualification times (rankings) are used
- Semi-finals – rankings from the Quarterfinals and qualification times are used
- Finals - rankings from the Semi-finals and qualification times are used.

325.4.2.4

The assignment of competitors to quarterfinal heats is determined from the finish rankings in the qualification round. Positions in subsequent heats are also assigned based on rankings or times in the previous round of heats. The table below illustrates the principle of allocating the competitors to their heats when the heats are not timed.

325.4.2.5

Table A: quarter finals with 6 competitors in 5 heats

TABLE A Quarter Finals with 6 competitors in 5 Heats, maximum 30 advance

* In competitions when the heats are not timed, the 6th positions in the semi-final heats are assigned from the 3rd ranked competitors in all the quarter final heats. The 3rd ranked competitor with the fastest qualifying time (Q R3-1) is assigned to the second semi-final heat S2 and the 3rd ranked competitor with the second best qualifying time (Q R3-2) is assigned to semi-final heat #1.

325.4.2.6

Or using Table B: quarter Finals using 4 heats

Q2 #1	Q4 #1	S2 #3	S2 #1
Q2 #2	Q4 #2	S2 #4	S2 #2

325.4.2.7

For OWG, WSC, JWSC and WC the heats must be timed and the assignment of competitors into the semi-final heats and the A-Final is according to the following principles:

For the 6th positions in the semi-final heats the next two fastest competitors from the quarterfinal heats who are ranked 3rd or 4th will be advanced. The fastest will be assigned to S2 and the next fastest to S1. For the A-Final the 1st & 2nd ranked competitor from each Semi-final heat are assigned to the A-Final plus the next 2 fastest competitors from either Semi-final heat who are ranked 3rd or 4th will also be assigned to the A-final, all other Semi-finalists are assigned to the B-Final.

In case of equal times in the heats for positions 5 and 6 (lucky losers), their qualification times will apply. If the tie still remains current sprint FIS points will apply; if a tie still remains, then the positions are determined by a draw.

325.4.2.8

In sprint competitions with less than 20 competitors in the Qualification Round the jury can decide to use a reduced version of Table A or they can assign competitors directly into the Semi-finals or the A-Final when the number of entries is very low.

325.4.2.9

Any competitor who causes a false start will be sanctioned by a written reprimand. Following the first false start in a heat, any competitor who causes a second false start in the same heat will be required to withdraw

from the competition. The competitor will be ranked as the last position of the applicable final, semi-final or quarter-final round (rank 6, 12, 30 or 4, 8, 16).

325.5 Timing and results

325.5.1 Timing

325.5.1.1 For OWG, WSC, JWSC and WC sprint qualifying round, start and finish times are recorded to 1/1000 precision and the final result is determined to 1/100 precision. For other FIS sprint competitions, it is possible to use timing equipment that only has 1/100 precision but still the final results report the hundredths of a second.

325.5.1.2 For OWG, WSC, JWSC and WC sprint heats, start and finish times are recorded to 1/1000 precision and the final result is determined to 1/1000 precision. For other FIS sprint competitions, it is possible to use timing equipment that only has 1/100 precision.

325.5.2 Qualification

325.5.2.1 In case of equal qualification times, the competitors who will be advancing to the quarterfinals will be ranked according to their FIS sprint points.. If a tie remains, the positions are determined by a draw. The tie in qualification results will not change maximum number of qualified competitors (30 / 24 / 16). Competitors with the same qualification time who did not advance to the quarterfinals will have the same ranking on this result list.

325.5.3 Final heats

325.5.3.1 Competitors with the same rank in the quarterfinals or semi-finals (if there is no B-final) who do not reach the next round are ranked according their qualification times in the final results.

325.5.3.2 In sprint competitions with 30 competitors to the quarterfinal the result list will be made as follows:

31st to last rank,	the results from the qualification round will be used
26th – 30th rank,	the 6th place finisher from each heat in the quarter-final will be assigned based their re-spec-tive ranking in the qualifying round
21st – 25th rank,	the 5th place finisher from each heat in the quarterfinal will be assigned based their respective ranking in the qualifying round
16th/17th - 20th rank,	the 4th place finisher from each heat in the quarterfinal will be assigned based their re-spec-tive ranking in the qualifying round (Exception, if one of those 4th place finishers will advance to the semi final)

- 13th – 15th/16th rank, the 3rd place finisher from each heat in the quarterfinal, who did not advance to the semi-finals will be assigned based their respective ranking in the qualifying round
- 7th – 12th rank, based on the order of finish in the B final in case of no B Final, the athletes are ranked according their ranking in semi-final and their qualification round
- 1st – 6th rank, based on the order of finish in the A final

325.5.3.3 In sprint competitions with 16 competitors to the quarterfinal the result list will be made as follows:

- 17th to last rank the results from the qualification round will be used
- 13th – 16th rank the 4th place finisher from each heat in the quarterfinal will be assigned based their respective ranking in the qualifying round
- 9th – 12th rank the 3rd place finisher from each heat in the quarterfinal will be assigned based their respective ranking in the qualifying round
- 5th – 8th rank based on the order of finish in the B final. In case of no B Final, the athletes are ranked according to their ranking in semi-final and their qualification round
- 1st – 4th rank based on the order of finish in the A final

With a different number of competitors in the sprint finals the same principles apply.

325.5.3.4 In case of a tie (“dead heat”) in quarterfinals or semi-finals, the competitor with the better qualification time is ranked ahead. If there is a tie in the A or B finals the competitors are ranked on the same place in the final results.

325.5.3.5 If the competitor does not start or ski the entire course in each heat the competitor will be ranked in the last position of these finals, semi-finals or quarterfinals (rank 6, 12, 30 or 4, 8, 16).

325.6 Jury and Protest

325.6.1 In sprint heats at OWG, WSC, JWSC, and WC the unanimous decision of minimum two jury members (including TD) equates to a jury decision.

325.6.2 Due to the timeline pressure of running successive heats it is not possible to allow protests during quarterfinals and semi-finals. Protests will only be accepted after the finals.

325.6.3 During quarter- and semi-finals, ICR art. 224.7 does not apply.

326 Team Sprint Competitions

326.1 Definition

Team Sprints are competitions carried out as relays with 2 athletes who alternately ski between 3 – 6 legs each. The numbers and distances of the legs have to be published in the official invitation.

326.3 Entries – Substitution

- 326.3.1 The names of the competitors actually competing and their starting order must be delivered to the organizer latest 2 hours before the Team Captains' Meeting.
- 326.3.2 Substitution is possible according to ICR art. 313.4.
- 326.3.3 The substitute athlete must start in the same Team position as the substituted athlete. The Team's starting order cannot be changed.
- 326.3.4 In case of substitution, the Team will lose its starting position and will have to start at the end of the field. The start order at the end of the field will be the same as the original starting order. The original start positions will be left empty.

326.4 Starting Order and Start Procedure

- 326.4.1 Mass Start procedure must be used (see ICR art. 315.3).
- 326.4.2 Normally 2 semi-finals will be used to select the teams for the final in a Team Sprint competition. The teams should be evenly distributed among two groups using the following principle:
- Best team by total points will be assigned to group A
 - Remaining teams will be assigned in subsequent pairs by ranking (example team 2 and 3, team 4 and 5, etc) to alternating groups.
- 326.4.2.1 The better points of distance and sprint FIS points of a competitor will be used. In case the entered competitor does not have FIS points, 999 points will be used for calculation.
- 326.4.2.2 If there are more than 40 teams entered, the Jury may decide to use 3 semi-finals and distribute the teams according to the following principle:

A	1	6	7	12	13	18	19	24	25	30	31	36	37	42	43	etc
B	2	5	8	11	14	17	20	23	26	29	32	35	38	41	44	
C	3	4	9	10	15	16	21	22	27	28	33	34	39	40	45	

- 326.4.3 The number of teams in one semi-final heat should not exceed 20 and the number of teams in the final should not exceed 15.
- 326.4.4 The assignment of groups to the semi finals will be determined by draw.

326.4.5 Start position for the semi finals: the team with lowest total points using either sprint or distance FIS points of the relay team members will start as number one. The team with the second lowest total points will start as number two and so on. In the case of more teams having equal total points, the team with the lowest point-holder starts ahead of the other. If this is not sufficient to determine the starting position, then starting position is drawn by lot.

326.4.6 *The advancement of teams from the semi-final heats to the finals is done according to the following principles:*

In case of 2 semi final heats:

- If the semi-final heats are not timed, the top 5 teams from each of the 2 semi-final heats will advance.
- When the heats are timed, then the top 2 teams from each heat will advance and the next 6 fastest teams from the 3rd-8th ranked teams will advance. In case of a tie, the teams will be ranked according to their team total points. If a tie still remains, then the positions are determined by a draw.
- In case of three or more semi-final heats, up to 15 teams can advance to the finals using the same principles as above (2 teams from each heat plus next 9 fastest times when heats are timed or same number of teams by ranking from each heat when heats are not timed).

326.4.7 The start position for the finals will be according to the results from the semi-finals (rankings followed by times).

326.4.8 Separate colours shall be used for the start numbers for each relay leg. For OWG, WSC and WC competitions they will be: 1st leg=red; 2nd leg=blue.

326.5 Timing and results

326.5.1 For OWG, WSC, JWSC and WC Team Sprint semi-finals and finals, start and finish times are recorded to 1/1000 precision and the final result is determined to 1/100 precision. For other FIS sprint competitions, it is possible to use timing equipment that only has 1/100 precision but still the final results report the hundredths of a second.

326.5.2 Overlapping Rules normally apply. For skiers who are lapped refer to ICR art. 343.14

326.5.3 The final results will be published according to the following:

All teams in the final will be placed in the results list according to their rank in the final. When semi-final heats are used the teams who do not advance to the final round will be placed on the results list so that each team with the same rank in their heat will be given a ranking for the next available rank on the result list. As an example, if 5 teams from two semi-

final heats advance to the final then the teams ranked 6th in each heat will be given the rank of 11th and 12th according to their time in their respective semi-final heats, the teams ranked 7th in each heat will be given a rank of 13th and 14th etc. in the final results.

If the heats are not timed, then the ranking of the teams in the semi-finals and the FIS points of the teams that did not qualify are used to determine the final ranking for these teams.

326.6 Jury and Protest

326.6.1 In Team Sprints at OWG, WSC, WJSC and WC the unanimous decision of minimum two jury members (including TD) equates to the jury decision.

326.6.2 Due to the timeline pressure of running successive heats it is not possible to allow protests during the semi-finals. Protests will only be accepted after the finals.

326.6.3 During Team Sprints, ICR art. 224.7 does not apply.

327 Relay Competitions

327.1 Definition

327.1.1 The relay team consists of three or four competitors, according to the invitation, of whom each may run only one leg. At OWG, WSC, JWSC and WC competitions, a Relay consists of four competitors.

327.1.2 In OWG, WSC and JWSC the first two legs will be raced using the classical technique on a classical course and the second two legs using free technique on a free technique course.

327.2 Course and Stadium for Relays

327.2.1 Recommended norms

327.2.2 The length of the first relay leg can deviate +/- 5% from the other legs, according to the stadium layout.

327.3 Entries - Substitution

327.3.1 The names of the competitors actually competing and their starting order must be delivered to the organizer latest 2 hours before the Team Captains' Meeting.

327.3.2 Substitution is possible according to ICR art. 313.4.

327.3.3 The starting order cannot be changed by substitution.

327.3.4 The Team starting position on the start grid will remain the same.

327.4 Starting Order and Start Procedure

327.4.1 Mass Start procedure must be used (see ICR art. 315.3).

327.4.2 Start numbers will normally be drawn. At OWG, WSC and JWSC the placing in the previous OWG, WSC or JWSC will determine the starting order. At WC, placing in the current Nation's Cup will decide the starting

order. Teams which do not appear in those results will be drawn after those that did. This method can also be used at other competitions.

327.4.3 When each nation can enter more than one official team, the first team for each nation must be placed on the start grid before the second teams and likewise for the third teams etc. Unofficial teams should have the least favorable starting positions.

327.4.4 Colors: Separate colors shall be used for the start numbers for each relay leg. For OWG, WSC and WC competitions they will be: 1st leg=red; 2nd leg=green; 3rd leg=yellow and 4th leg=blue.

327.5 Timing and Results

327.5.1 Intermediate times for the individual legs of the course are taken when the competitor crosses the line for the intermediate timing. This is also the starting time for the next competitor.

327.5.2 The total time of a relay team is the time which elapses between the start and team's final competitor crossing the finish line. The order in which the competitors finish the last relay leg determines the result list.

327.5.3 Overlapping Rules normally apply. For skiers who are lapped refer to ICR art. 343.14

327.6 Jury and Protest

No specific rules.

341.2 FIS Points System

341.2.1 The FIS Points are used particularly for establishing the qualification for OWG, WSC and World Cup competitions, grouping and start list creation (see: World Cup rules and Rules and Guidelines of the FIS Points available on the FIS Website).

342 Medical Examinations

342.1 State of Health

342.1.1 The National Associations are responsible for the health of the competitors they enter. The competition doctor will only carry out a medical examination at the request of the competitor's Team Captain, competitor or the representative of the FIS Medical Committee (see ICR art. 221).

343 Responsibilities of the competitors

- 343.1 In all training and competition situations the athlete must act with due care taking into account the course conditions, visibility and competitor congestion.
- 343.2 In all training and competition situations the athletes must always ski in the competition course direction.
- 343.3 Competitors must follow the special instructions (course opening times, wearing special bibs, training, ski testing, ...) issued by the Jury or OC in order to ensure order on the course, in the stadium and in the team preparation area before, during and after the competition.
- 343.4 The competitor is responsible for arriving at the start and starting at the correct time.
- 343.5 Competitors must wear/use all the means of identification (bibs, leg bibs, transponders, GPS...) provided by the organizer.
- 343.6 Competitors must follow the marked course in correct sequence from start to finish and must pass all control points.
- 343.6.1 If a competitor skis on a wrong section or leaves the marked course, the competitor should return to the point where the error was made. In order to do so, the competitor may have to ski against the correct ski direction and shall be totally responsible for ensuring that there is no obstruction and that other competitors are not endangered.
- 343.7 Competitors have to cover the whole distance on their skis using only their own means of propulsion. Help from outside pacemakers is not allowed.
- 343.8 In classical technique competitions, the competitors must use classical technique only.
- 343.8.1 In Interval Start competitions and Sprint qualification any violation of classical technique (for example skating strides to maintain or increase the speed) will be considered to affect the results (due to improved time and better FIS points caused by the skating), and the jury will apply the appropriate sanction regardless of the time difference between skiers, even for a winning athlete.
- 343.8.2 In classical technique competitions, the maximum pole length must not exceed 83% of the competitor's body height. In free technique competitions, the maximum pole length must not exceed 100% of the competitor's height. The body height is measured with ski boots on from a flat surface, to the top of the uncovered head.
- The pole length is measured from the bottom of the pole to the highest attachment of the strap.

All measurements will be rounded to the nearest centimeter as follows: less than 0.5 cm will be rounded down and 0.5 cm and above will be rounded up.

Body height	Pole length	Body height	Pole length	Body height	Pole length	Body height	Pole length	Body height	Pole length	Body height	Pole length
200	166,00	190	158,00	180	149,00	170	141,00	160	133,00	150	125,00

343.9 In all competitions obstruction is not allowed. This behavior is defined as deliberately impeding, blocking, charging or pushing any competitor with any part of the body or ski equipment.

343.10 Overtaking

343.10.1 During an Interval Start competition a competitor who is being overtaken must give way on the first demand.

This applies in classical technique courses even when there are two tracks

In Canadian Competitions:

343.10.1 also applies to lapped skiers in Mass Start competitions.

343.10.2 For all other competition, when overtaking occurs, competitors must not cause any obstruction.

The responsibility for a correct passing without obstruction is on the overtaking skier. The overtaking skier must have his/her skis in front of the skis of the overtaken skier before skiing his/her best line.

343.11 In sections with marked corridors, the competitors should choose a corridor. A competitor is allowed to leave the chosen corridor as long as the ICR 343.9 is upheld.

343.12 Equipment exchange

343.12.1 In all competitions pole exchange is only allowed in the case that a pole is broken or damaged. In classical technique competitions, if both poles are exchanged, they must comply with ICR 343.8.1.

It is however permitted to exchange poles in equipment pit boxes during ski exchange in Skiathlon competitions.

343.12.2 Skis may be changed only if:

- The skis or bindings are broken or damaged. The equipment failure must be proven to the Jury after the competition.
- Equipment exchange boxes (Pit boxes, team boxes in Team Sprints) are in place at the competition.

343.12.3 In the case of any ski exchange, the competitor must do it outside of the track without help from any other person.

343.12.4 When ski exchange boxes (pit boxes) are provided for long distance or Skiathlon competitions, the competitor is permitted to change skis inside the pit box one or more times. All equipment exchanges must be done by the competitor within the assigned box without any assistance.

The number of ski exchanges is limited to:

- 1 time maximum at competitions up to 30 km
- 2 times maximum at competitions longer than 30 km

343.12.5 When ski exchange boxes (pit boxes) are provided, overtaking along the access corridors to the boxes is only allowed on the side that is farthest from the boxes.

343.12.6 Waxing, scraping or cleaning of the competitor's skis during the competition is forbidden. Exception: In classical technique competitions competitors may scrape their skis to remove snow and ice and add wax if necessary. Competitors may only be handed tools or materials and must do this outside of the track without help from any other person. It is not allowed to place branches, tools or materials on or adjacent to the groomed course.

343.13 Relay exchange

343.13.1 In a team event, the exchange is achieved by the arriving competitor, with a tap of the hand on any part of the next competitor's body while both competitors are in the relay exchange zone. The next competitor may only enter the relay exchange zone when summoned. Any method of pushing the starting competitor is forbidden.

343.14 Overlapping

343.14.1 In Pursuit competitions, Skiathlon, Mass Start, Team Sprint and Relay competitions, competitors or teams, who are lapped or instructed by competition officials to stop the competition, must abandon the competition. The competitors or teams who are stopped will be ranked in the final results (no time) according to their ranking at their last intermediate timing point.

For all Nordiq Canada sanctioned competitions this rule does not normally apply unless specifically stated in the Technical Package or Race Notice. In exceptional circumstance the Jury may choose to invoke this requirement.

- 343.14.2 ICR art. 343.14.1 must be applied for OWG, WSC and WC.
- 343.14.3 For all other FIS competition the jury decides if ICR art. 343.13.1 applies.
- 343.15 Communication devices that support wireless communication between coaches and athletes or between athletes are not allowed during competition.
- 343.16 The competitors must comply with the instructions of competition officials.
- 343.17 The competitor must comply with all aspects of the medical code (see ICR art. 221).

For Canadian competitions:

Any competitor withdrawing from the competition due to an accident or for any other reason must be reported to the officials at the Finish Line and the bib returned.

344 Responsibilities of Officials and Others

- 344.1 If required, the Jury will issue special regulations for officials, media and service people and any other non-competitors, to ensure order on the course, in the stadium and in the team preparation area before, during and after the competition.
- 344.2 For order and control on the courses the following principles apply:
- from 5 minutes before the start until the time the course closers have passed, all officials, coaches, non-competitors and other accredited persons, are not permitted to ski on the course. During the competition, these persons must take fixed locations beside the course and must stand without skis on.
 - while giving intermediate times and information to competitors, officials, coaches and others are not allowed to run more than 30 meters beside the competitors
 - while doing this work officials and others have to ensure not to obstruct competitors
 - while giving refreshments to the competitors the coaches must ensure not to obstruct competitors and must maintain a fixed position.
- 344.3 In order to obtain clean TV coverage and for safety reasons parts of the competition course may be closed for all but the competitors taking part in the competition. The Jury can allow ski testing and warming up by competitors on parts of the competition course before and during the competition. Athletes and service personnel, wearing special bibs may be allowed to ski on these parts of the competition course.

- 344.4 Wax testing and warming up on the ski competition course must always be done in the competition course direction. Anyone testing skis on the competition course must consider the safety of others on the course and the course preparation. Electronic timing devices used for testing skis will not be allowed on the course during the competition or official training.

E. NOT PERMITTED TO START, SANCTIONS

351 Not Permitted to Start

A competitor will not be permitted to start in any FIS International Ski competition who:

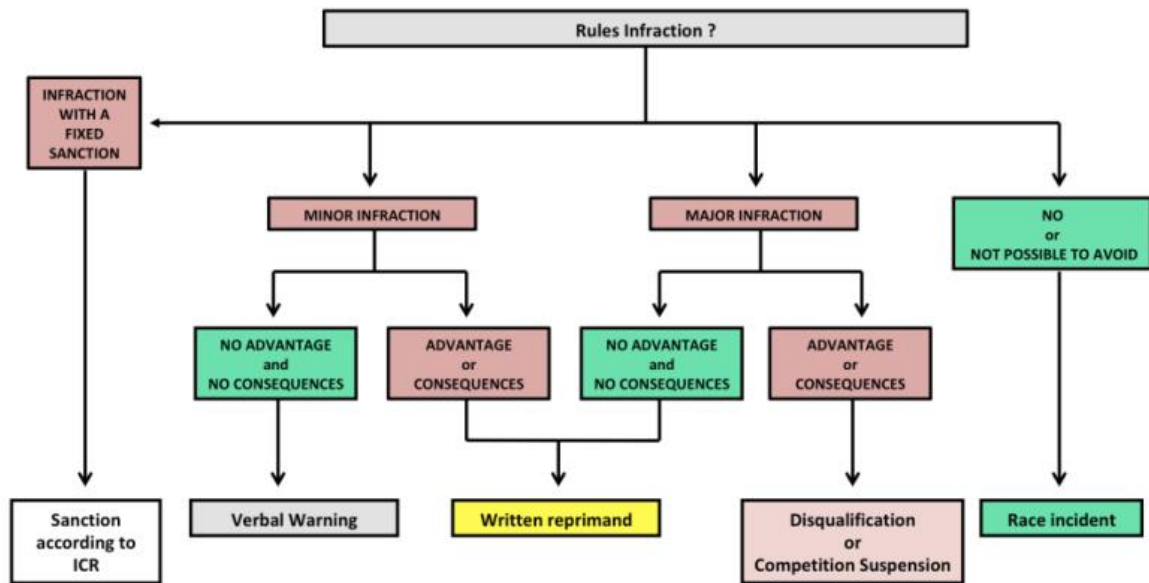

- 351.1 wears obscene names and/or symbols on clothing and equipment (ICR art. 206.7) or behaves in an unsportsmanlike manner in the start area (ICR art. 205.5)
- 351.2 violates the FIS rules in regard to equipment (ICR art. 222) and commercial markings (ICR art. 207)
- 351.3 refuses to undertake a FIS required medical examination (ICR art. 221.2)
- 351.4 If a competitor has actually started in a competition and is later determined by the Jury to have been in violation of these rules the Jury must sanction the competitor.

352 Sanctions

352.1 Procedure

- 352.1.1 When an infraction to the rules occurs, the jury must meet and decide the appropriate sanction by taking into consideration:
- the specific circumstances
 - the gain or advantage for the offender (see ICR art. 223.3.3)
 - the negative impact on other competitors
 - the impact on the final result or intermediate results (sprint heats or bonus sprints)
 - the level of the competition
 - the age and experience of the competitors

352.1.1.1 The following decision chart should be used when deciding on a sanction:

352.1.2 A hearing of the offender (ICR 224.7) may be organised:

- on demand of the jury if necessary
- on demand of the offender in case of submission of a protest according to ICR 361.

352.1.3 Sanctions for the violation of the technique rules can be given by a unanimous decision of two jury members (including TD) without video evidence.

352.1.4 For OWG, WSC and WC competitions sanctions can be given by a unanimous decision of the Race Director and the TD.

In the event that the TD or Race Director come from the same nation, the TD nominates a substitute from the jury members.

352.2 Disqualification

352.2.1 Disqualification should be used only for major infractions and for infractions with a clear impact on the final result of a competition.

352.2.2 In addition, a competitor should automatically be disqualified if he:

- participates in the competition under false pretences
- either jeopardizes the security of persons or property or actually causes injury or damage
- runs more than one leg in a Relay competition (ICR art. 327.1.1)

352.2.3 A competitor who receives a second written reprimand in the same season will be automatically disqualified. Written reprimands given during the

season are not valid in the JWSC, WSC and OWG periods. Written reprimands given during JWSC, WSC or OWG are valid until the end of the season.

- 352.2.4 During stage events and the first part of pursuit competitions an offence that is normally sanctioned with a DSQ can instead be sanctioned by a time penalty (see ICR art. 353.4). Using DSQ or time penalty will be the jury's decision.
- 352.2.5 After disqualification, the competitor's name will be shown on a revised result list indicating his/her status as DSQ and no times must be printed for this competitor.
- 352.2.6 In Sprint and Team sprint competition, if an infraction leads to disqualification and that infraction caused another athlete (or team) not to advance to the next round, the jury may allow the competitor (or team) to proceed into the next round. In this case the competitor or team concerned will start in the least favorable start position.
- 352.2.7 A competitor disqualified in sprints heats at Sprint competitions will keep their qualification result and will not be disqualified from the qualification result list.

352.3 Competition suspension

- 352.3.1 Competition suspension can only be used for ICR infractions during sprint heats, team sprint heats and bonus sprints (both intermediate and finish) and popular competitions..
- 352.3.2 In Sprint competitions, a Competition Suspension means that the athlete will be ranked last in the heat and last in the round (6th for Final, 12th for 1/2 finals and 30th for 1/4 finals).
- 352.3.3 In Mass Start or Skiathlon competitions, a Competition Suspension means that the athlete will be relegated out of the result of a bonus sprint.
- 352.3.4 In popular competitions, suspension means that the competitor is ranked on last rank and his/her time is not published.
- 352.3.5 Competition suspension will always be accompanied by a written reprimand.
- 352.3.6 In Team Sprint competitions, a competition suspension means that the team will be ranked last in the heat and last in the round.

352.4 Time Penalty

- 352.4.1 The following false start infractions should be sanctioned by time penalties:

- 352.4.1.1 In Interval Start competitions or Sprint qualifications, early start infractions should be sanctioned by a minimum time penalty of 15 seconds (the competitor's actual skiing time + 15 seconds minimum penalty).
- 352.4.1.2 In competitions with Pursuit Start, early start infractions should be sanctioned by a time penalty equal to the time gained (posted start time minus actual start time) + 30 seconds minimum penalty.
- 352.4.2 In stage events, the Jury can decide to substitute a DSQ with a 3 minutes time penalty (see ICR art. 353.2.4).
- 352.5 Written Reprimand**

G. POPULAR CROSS-COUNTRY COMPETITIONS

380 Definition of Popular Cross-Country Competitions (PCCC)

380.1 Competitions

380.1.1 Popular Cross-Country Competitions (PCCC) are competitions open to all Cross-Country competitors, licensed and non-licensed, without limitation on competition distance or format.

381 Entries and Competitors

381.1 Entries

381.1.1 Entries should be forwarded promptly by mail, by e-mail or by facsimile transmission in accordance with regulations in the invitation. Early entries may receive a reduced entry fee. Additional fees may be charged for late entries.

381.2 Licenses

381.2.1 Licensed competitors are responsible for complying with the license requirements of their own NSAs.

381.3 Seeding

381.3.1 Competitors may be placed in different starting positions according to their competitive abilities. The seeding may include an elite start group. The seeding of the elite start group should be according to the competitors FIS-points or other ranking system like a mass start competition (see ICR art. 314.5 and 314.6) and competitors without FIS-points should be seeded based on known previous performance or by nomination of the competitors NSA.

For Canadian competitions: the Distance CPL will be used to rank athletes.

381.4 Grouping

381.4.1 Competitors may be grouped in accordance with results from previous years' competitions or other competitions. They may also be grouped by sex and age or by date of submission of competition entry.

381.5 Results

381.5.1 Separate result list must be published for men and ladies.

381.6 Competitors

381.6.1 Popular cross-country competitions are organized for the enjoyment of all participating competitors. Because these competitions involve competitors with a wide range of experience and ability, good sporting behaviour and courtesy toward other competitors are essential. Competitors who demonstrate unsporting behavior or do not follow these Rules or the rules of the competitions may be sanctioned by the Jury. During a Popular cross- country competition competitors must

- follow the marked course from the start to finish passing all control points
- complete the course on skis using only their own means of propulsion and without assistance from others
- neither hinder nor interfere with other competitors
- make a reasonable effort to allow faster competitors to pass. Normally slower competitors should use the right track or side of the course, faster competitors the left
- comply with the special regulations of the competition (e.g. littering).

381.6.2 The age classes should follow the same principles as defined in ICR 341.1.

381.7 For Popular Cross-Country races on the FIS WC or Marathon Cup calendar, all Competitors placed in an elite group must comply with ICR article 207 "Advertising and Commercial Marking" and with article 222 "Competition Equipment"

381.8 ICR 343.12.6 does not apply to competitors outside of the seeded group.

- ski-marking
- starting procedures
- warm-up area and procedures
- feeding station locations and refreshments available

- other necessary information

384 The Course

384.1 Width

384.1.1 All obstacles must be cleared from the course to a width that allows, at a minimum, double tracks to be set throughout the length of the course. For

free technique competitions the course width should allow unhindered overtaking.

384.2 Start Area

384.2.1 The start area should be flat or nearly flat. It should lead directly into the course and be wide enough to avoid excessive crowding. The start should gradually narrow to the width of the course over a distance sufficient in length to allow competitors to spread out before entering the tracks. The start area should be organized to provide for

- ski-marking
- control of competitor identification
- control of commercial markings
- competitor seeding
- crowd control.

384.3 Finish Area

384.3.1 The course should enter the finish area on a straight and flat approach. The finish area should be flat and sufficiently wide to allow several competitors to finish at the same time without impeding each other. The last 200 meters should have a width of at least 10 meters and be divided into at least 3 lanes separated with appropriate markings. Where more than one competition (two races of different distances) are held over the same course at the same time, separate finishing lanes should be provided to ensure that the leaders in the longer competition are not hindered by slower finishers in the shorter competition. The finish area should be designed and equipped for the necessary control functions and to avoid crowding. Interview (mixed) and flower ceremony zones should be fenced and separated from the crowd of finishing participants and spectators. Feeding, access to clothing, showers or transportation to such facilities should be clearly marked in different languages and available near the finish area.

384.4 Course Preparation

384.4.1 Pre-season

The course should be groomed and maintained to ensure that the competition can be held safely with a minimum of snow cover.

384.4.2 Winter preparation

The course should be packed and groomed throughout the winter to ensure a solid base for final preparation.

384.4.3 Free Technique

In free technique competitions, the course should be well packed and wide enough to allow two competitors to ski side by side. Where appropriate, one single track may be set along the side of the course. The last 200 meters should be prepared to a width of at least 10 m. This section should be divided into at least 3 lanes and separated with appropriate markings.

384.4.4 *Classical Technique*

Normally the course should be set with two tracks. Where the width makes it possible, more tracks should be set. In steep downhills or other locations as designated by the TD and chief of competition, no tracks should be set. In the finish area, the last 200 meters should be set with as many tracks as possible. In appropriate situations, with approval of the TD and the chief of competition, course grooming may take place during the competition.

384.4.5 *Both Techniques*

Competitions may be carried out in both techniques at the same time and on the same course. In such cases, the course for free technique should be separated from the classical course with appropriate barriers or markings so classical competitors do not have the opportunity to use the other course and vice versa. Each course should be packed and prepared in accordance with ICR art. 384.4.3 and 384.4.4.

384.5 Measuring and Marking

384.5.1 The competition course must be measured for length from start to finish by GPS device, chain, tape or measuring wheel. Each kilometer should be marked. The last 500 meters and the last 200 meters should also be marked. Places such as steep downhills, curves, crossings should be given special marking.

384.6 Feeding

384.6.1 Feeding stations should be provided approximately every 10 km. If the course is difficult, the distance between the feeding stations may be shortened. In easy terrain, the distance may be increased. For competitions longer than 50 km different types of drinks and other appropriate nourishment should be provided.

384.6.2 When team officials give refreshments to their competitors, they must follow ICR art. 344.2.

In Canadian competitions the types of food and drink available at feeding stations should be made known beforehand to competitors and, wherever possible, should be laid out in the same order at each feeding station. Drinks should always be warmed before serving and must not be allowed to get cool by being poured out too soon before the arrival of the first racers.

384.7 Course Layout

384.7.1 Popular cross-country competitions should be conducted to accommodate all levels of competitors from recreational racers to elite athletes. Course layout should be adapted to the skill levels of the competitors.

384.8 Bonus sprints

384.8.1 When having sprints along the course, the final approach to the sprint should be minimum 50 m straight that is wide enough for 2 competitors to sprint side by side. The bonus sprint finish line must be clearly marked. Sprint controllers must be assigned to each bonus sprint.

385 Control

385.1 Control Procedure

385.1.1 All aspects of the competitions must be controlled in a manner to ensure the safe and fair conduct of the competition for the competitors. The location of control points and utilization of controllers should be determined by the chief of competition in consultation with the TD, giving particular attention to the following

- technique control, if any
- completion of the entire competition course without shortcuts
- completion of the entire competition on skis
- ensuring any support or assistance given competitors is in accordance with the ICR
- compliance with ICR commercial markings regulations
- providing a competition course free from obstructions
- ensuring competitors do not obstruct or hinder one another
- control at sprint positions and finish line
- other control aspects as required.

385.1.2 Controllers should be qualified to perform their assigned duties.

386 Medical and Safety

386.1 Medical Officer

386.1.1 A chief medical officer will be appointed for every Popular cross-country competition. He will be a member of the Competition Committee and may be invited to attend the Jury meetings. The chief medical officer must be a licensed medical officer.

386.1.2 First Aid and Medical Service

The first aid and medical services must be completely operational during all training times. Details of the Medical Support Requirements are given

in chapter 1 of the FIS Medical Guide containing Medical Rules and Guidelines.

386.2 Planning

386.2.1 The medical officer shall prepare an emergency first aid, evacuation, and notification plan for injuries, accidents, or deaths. Information regarding this plan and procedures to be followed in the event of injury, accident, or death should be provided to competitors and competition officials.

386.3 Training

386.3.1 The medical officer shall designate, inform and train a sufficient number of medical, safety and emergency personnel to provide for the safety and medical needs of the competitors.

386.4 First Aid Stations

386.4.1 The location of first aid stations shall be marked by appropriate signs along the course. There shall be heated first aid stations in the start and finish areas.

387 Sanctions, Protests and Appeals

387.1 In principle art. 352 applies. Any evidence on rules infraction, submitted within 48 hours after the last participant has finished the main race, must be considered and decided by the competition jury within 72 hours after the first competitor has finished the race.

387.2 Protests concerning skiers with active FIS codes can be filed within 1 hour after the first competitor has finished the main race. Such a protest must be filed according to ICR 361.4 and 361.5.

387.3 Protests concerning other competitors can be filed within 48 hours after the first competitor has finished the main race. Such a protest must be filed according to ICR 361.4.

387.4 Competitors with no active FIS codes have no right to appeal.

388 Cold Weather Precautions

388.1 Background

388.1.1 There are three main factors to be considered by the Jury regarding cold weather safety: the temperature; the duration of the exposure; and, the clothing and other protection against cold weather. These factors together

with any other relevant information such as the "wind chill factor" must be taken into consideration when a decision is made regarding cold weather.

388.2 Between minus 15° and minus 25° C

388.2.1 If the temperature level is forecast to be between minus 15° and minus 25° C at any point on the course, recommendations regarding cold weather protection should be made available to the competitors. Under such conditions it is the responsibility of the competitors to seek the information and to follow the recommendations given by the organizer.

388.3 Minus 25° C and below

388.3.1 If the temperature in a major portion of the course is minus 25° C or below, the competition shall be delayed or cancelled.

388.4 Warm Weather Precautions

388.4.1 If the temperature is forecast to rise above 5 degrees C during the course of the competition, and exposure to sunshine is expected, recommendations must be given to competitors concerning clothing, skin protection and the need to consume adequate liquid before and during the competition. Feeding stations must ensure that they have adequate drinks to meet the increased demand. First aid stations must be briefed to be alert for signs of dehydration or any damage from sun exposure and be prepared to take necessary measures in cases of dehydration or sunburn.

389 Cancellation Procedure

389.1 Policy

389.1.1 Normally the factors to be considered for the cancellation or the postponement of a competition are: temperature, weather conditions, snow conditions and course conditions. If a competition is postponed, a new date should be arranged with the NSA concerned.

389.1.2 Cancellation or Postponement more than Six Days before the Competition

If a decision to cancel or postpone a competition is taken at least 6 days before the date of the original competition, the organizing committee must immediately inform the NSAs, the media and post the information on the Internet. This decision will be made by the Organizing Committee in consultation with the TD.

389.1.3 Short Notice Cancellation

A short notice cancellation is made six or fewer days before the date of the competition. However, a competition cannot be cancelled less than three hours before the scheduled start time except for the competitors' and officials' safety. The cancellation procedure must be included in the

information to the competitors (see ICR art. 382.2). The cancellation decision shall be made by the Jury.

389.1.4 Refund Policy

If a competition is postponed, competitors who have paid the entry fee should be allowed to compete in the postponed competition without additional charge. If a competitor decides not to compete in the postponed competition, the entry fee will not be refunded. The policy for refunds in a cancelled competition should be stated in the announcement for the competition (ICR art. 382.1).
