Please note that this technical package has been written to allow for Tier 2 events to be held under normal conditions and that given changing COVID-19 requirements, some of these provisions may not apply and reference should be made to the invitation and further communications from the Organizing Committee to get the most recent updates.

Host organizations are requested to comply with their Federal, provincial, and municipal health public authorities restrictions and their division guidelines regarding the COVID-19 and align their protocol for athletes, coaches and volunteers with these recommendations.

Contents

This Technical Package is provided to ensure uniformity and a high standard in the hosting of Nordiq Canada Tier II Points Races from site to site across the country. Nordiq Canada provides direction and quality control through an appointed Technical Delegate (TD), the latest version of the Nordiq Canada Rules and Regulations, Nordiq Canada Rule Precisions and this document.

The framed guidelines relate to the FIS-sanctioned Open categories for Organizing Committee (OC) that will host a FIS race in their Tier II event.

1.0 Preliminary Information

1.1 Objectives

- Create Nordiq Canada Tier II Points races to assist in athlete development at the regional level across the country
- To promote cross-country ski racing to the public at large
- Encourage high level domestic competition among regional skiers who aspire to National level events
- Provide results, where applicable for calculation of Canada Point Lists used for seeding purposes
- Support regional development and race opportunities for late train to train to train to win athletes in both able and para disciplines

1.2 Responsibilities

The planning and execution of the Nordiq Canada Tier II Points Races requires cooperation between Nordiq Canada, Provincial and Territorial Divisions and hosting Clubs. Nordiq Canada Points Races are considered Nordiq Canada-Tier II competitions that comply with the standards within this Technical Package. A TD will be appointed by the Host Division in cooperation with Nordiq Canada.

In general a host organization can have the opportunity to request a FIS-sanctioned for their Open categories if the courses used are FIS-homologated as well as FIS homologated timing equipment and if the calendar allows for it. For these particular cases, the TD will be appointed by Nordiq Canada but the division will have the opportunity to appoint an Assistant Technical Delegate and in some cases an additional Jury member. Nordiq Canada will receive any requests through the division and will submit them to the Nordiq Canada Events Committee for its review and decision.

Important references governing these events include the following documents found in the document centre at www.nordiqcanada.ca

- Canadian Competition Rules (CCR) & Precisions
- WPNS Rules and Regulations 2020/2021
- Nordiq Canada Officials Handbook V4* or latest version if superseded
- Nordiq Canada Competition Model
- Nordiq Canada Bylaws

FIS International Competition Rules (ICR) must be observed in the Open category races.

Note: Reference documents are updated regularly. The most recent version must be used as reference.

2.0 Format

2.1 Athletes and Eligibility

- All competitors in the competition are individual members in good standing of Nordiq Canada and possess a current Nordiq Canada racing license; or,
- All competitors are members of Nordiq Canada and compete in the U12 or younger age category;
- Alternatively, competitors must purchase a Nordiq Canada supporting member day license or, for foreign skiers, must hold a valid FIS race license issued through their national association.
- Para athletes are either nationally, internationally classified. In the event, national classification has not been possible, the athlete will default to the highest classification in their category (LW12, LW9, B3);
- Para-Nordic guide license are the responsibility of the visually impaired athlete. Guides are not expected to pay registration fees, however all guides must sign the Nordiq Canada Informed Consent and Assumption of Risk form available from event hosting clubs;

2.2 Age Groups and Categories

Category	Gender	Sub Category	Year of Birth
Sit Ski	M/F	LW10-12	
Standing	M/F	LW2-9	
Visually Impaired	M/F	B1-2	
U14	G/B	U14 2 U14 1	2007 2008
U16	G/B	U16 2 U16 1	2005 2006
U18	G/B	U18 2 U18 1	2003 2004
U20	W/M	U20 2 U20 1	2001 2002
U23	W/M		1998-2002
Senior	W/M		2000 and older

Note 1: The Open category is a combined category of Senior and Junior Men/Women athletes. In order to maximize the points available in a given competition, the OC is encouraged to review race distances and offer combined categories when distances adhere to recommendations in the Competition Model. Skiers entered in the combined category will be seeded together. The results may include sub-categories composed of U20, and U23 seniors for recognition purposes.

Note 2: If The CCUNC category is integrated to the race program it should be into the Open category. In addition to normal Tier 1 & 2 eligibility, athletes competing in the CCUNC category must meet the varsity requirements of their institution, (U Sport member, CEGEP or College) and are enrolled in a minimum of 3 courses /semester for 2 semesters in the most recent 12-month period.

Note 3: Although U14 is not an official race category, OC's may elect to offer development level races below the U16 category. Competitions should be modified to reflect the recommendation in the Competition Model for U14 and below categories.

Note 4: Athletes of YOB sub-categories that decide to race at a more advanced stage of development are considered as "racing up" and thus should be considered as athletes of the first YOB in their actual competition race category for awards.

Note 5: Calculation of final points and times for para athletes that have competed in mixed categories will be done using the WPNS Percentages as outlined [here](#)

2.3 Competition Rules

It is expected that the OC, officials, and competitors will abide by the following rules where applicable:

- Canadian Competition Rules (CCR) & Precisions
- WPNS Rules and Regulations 2020/2021
- FIS Rules as applicable

3.0 Race Formats and Courses

3.1 Race Distances and Techniques

In principle, there will be an equal split of races between free technique and classic technique over the season. The National calendar will include individual start, pursuit and mass start formats.

An individual sprint format will be used for sprint races. Specific rules are found in section 325 of the ICR/CCR and the WPNS Rules and Regulations 2020/2021. Organizers are encouraged to maximize the number of skiers participating in the heats and may modify the format of the heats to encourage skier development and promote maximum participation.

3.2 Homologation Standards

Homologation standards for the courses for the different age categories and distances are tabled in the Competition Regulations section 311.2.5, the WPNS Rules and Regulations 2020/2021 or subsequent Rule Precisions.

At this level of competition, the OC should respect homologation guidelines for specific age categories and classification levels as outlined in the CCR and precisions and the WPNS Rules and Regulations 2020/2021.

FIS-sanctioned Open categories must be held on FIS-homologated courses. Nordiq Canada Homologation Guidelines can be found in the Document Centre on the Nordiq Canada website.

A site visit by either or both the TD and the Nordiq Canada RD might be necessary in the summer prior to the event when a new site has been developed. The TD, Nordiq Canada Events & Partnership Coordinator (EPC), Chairperson of the OC and the Chief of Competition should agree on any outstanding technical or organizational issues no later than three months before the event. Once the Event Notice has been published, decisions and changes made regarding the competition or its conduct must be approved by the Jury and should be published on the Nordiq Canada website and the event website.

3.3 Grooming

The OC must provide coaches and athletes with the assurance that it has taken the necessary steps to produce the best possible track for racing under the most adverse weather conditions, including ice and heavy snow.

Trail-grooming capabilities should include:

- a) A full width tracked vehicle equipped with a renovator that is hydraulically operated; and
- b) An Alpine twin track or equivalent single-track setter (Bachler type molded).
- c) Capacity to set multiple classic tracks at a minimum 1.20 meters difference (1.25 - 1.5 m) measured from the middle of each pair of tracks

Grooming resources must be sufficient and flexible enough to allow grooming at any time which will ensure optimum trail preparation.

3.4 Course Marking and Inspection

The competition trails should be marked the day before competitions begin and in such a manner that VI athletes and their guides can make no reasonable incorrect course assumptions.

4.0 Hosting

4.1 Host Club Responsibilities (Summary)

- Organize and conduct all events in accordance with Nordiq Canada Rules and Regulations and this Technical Package.
- Provide accessible infrastructure (parking, bathroom/POP, parking, etc.) and course for Para Nordic athletes.
- Provide timely distribution of the Race Notice (six weeks in advance) and official results in the specified formats on Zone4 or excel template as provided by Nordiq Canada.
- Include event information on the Club/event website a minimum of two months before the event. The OC should appoint a webmaster who is responsible exclusively for the maintenance of the competition website.
- Assign a Press/Media Liaison Official. It is important to work diligently to obtain good event coverage in the local media (press, TV, radio) and to encourage provincial coverage wherever possible. The Press/Media Liaison official must work closely with the event webmaster.
- Provide proper marketing to attract sponsors and other partners to the event. The OC owns all marketing opportunities and the property rights of the event.
- Supply bibs for the competitions.
- Provide a high-quality sound system with distribution to spectators and team wax areas.
- Provide a race announcer or announcers, with appropriate capabilities (preferably in both official languages).

4.2 Host Site

It is the intent of Nordiq Canada to develop - in cooperation with parent Divisions - a set of designated sites and organizing committees to host these events. Designated sites will meet the following criteria:

- courses that are suited to this level of competition;
- trained, experienced officials;
- suitable infrastructure; and
- appropriate financial support.

All hosts must be able to demonstrate compliance with the current Technical Package.

4.3 Liability Insurance

As a minimum, the host Club must subscribe to the Nordiq Canada insurance policy through its membership in a Division (in good standing) of Nordiq Canada. Divisions will have more information on this issue.

4.4 Event Sanctioning

A competition is “sanctioned” when the OC agrees to meet the criteria established by the sanctioning body. Sanctioning by Nordiq Canada indicates the following:

- All competitors in the competition meet the athletes eligibility standards as outlined in 2.3
- The competition will be conducted in accordance with current Nordiq Canada rules and regulations, with on-site supervision by a Nordiq Canada-trained TD.
- Nordiq Canada attributes Canada Points List (CPL) and Para CPL points to all competitors possessing a valid Nordiq Canada race license.

FIS attributes FIS points to all competitors in the Open categories possessing a valid FIS race license.
--

4.5 Competition Registering

A competition is “registered” when the particulars of the competition have been submitted to Nordiq Canada through the online sanctioning process at zone4.ca. All competitions hosted by Nordiq Canada clubs are expected to be registered 30 days in advance. Registration must outline specified safety precautions taken as per the Nordiq Canada insurance policy in order for Nordiq Canada’s liability insurance to be in force.

4.6 Back-up Site and Race cancellation

Each OC should identify a potential backup site for use in the event of poor snow conditions.

A decision on event cancellation or change of site will be made by the OC and host Division one week prior to the event, in consultation with the OC Chair and the TD.

In the event of a new site being chosen, the two OCs will develop a joint budget and share the event revenues as they relate to entry fees, sponsorships and hosting grants, in order to minimize any event deficits that may be incurred.

The OC of Nordiq Canada CPL Competitions must include:

- competition cancellation details;
- amounts to be refunded;
- methods of communications and,
- in the case of selection competitions, notice of an alternative competition day for weather related cancellations in their Event Notice package.

4.7 Refund Policy

Should an event be cancelled as outlined in 4.6, the OC in cooperation with the host Division, will provide a refund of registration fees less:

- The costs associated with expensed items not re-usable at future events; and
- Event administration costs to include OC meetings, site preparation, perishable refreshments, advertising and promotional costs.

The OC should also consider a skier's opportunity to compete in substitute events of a similar quality hosted by the OC.

5.0 Technical Delegate and Jury

5.1 Technical Delegate (TD)

The TD will be appointed by the host division in cooperation with Nordiq Canada and is responsible to the appointing body.

The TD should not be a member of the host club.

The TD will be appointed by Nordiq Canada.
--

5.2 Jury Composition and Function

The Jury members are:

- Technical Delegate (TD) – who is chair of the Jury
- Assistant Technical Delegate (ATD) – appointed by the division
- Division Representative
- Chief of Competition

At the discretion of the Jury, other experts may be invited to attend Jury Meetings as observers. Observers do not have a vote in Jury decisions.

The Jury will be composed of four members: the TD, the ATD, the EPC and the Chief of Competition

6.0 Sanctioning, Eligibility and Entries

6.1 Sanctioning

All Nordiq Canada Tier II CPL competitions will be sanctioned nationally by Nordiq Canada. The Nordiq Canada sanctioning fee is \$50.00 per competition day, payable online through the Nordiq Canada Event Sanctioning form at zone4.ca per the Nordiq Canada Registration and Sanctioning Policy. It can also be done through the division.

For FIS sanction, Nordiq Canada will apply for Open categories and the latest FIS ICR will apply. For the 2020-21 season Nordiq Canada will waive the FIS sanctioning fee of \$350.00. Variance from the FIS rules may be considered by the TD when local conditions require change to maintain a safe and equitable competition. However, in all circumstances the TD must follow the spirit and intent of the Competition Regulations.

6.2 Athlete Registration and Points

Athletes have the discretion to elect to race in a race category consistent with the CM. This decision should be made in consultation with an athlete's coach and taken in consideration of the race format, distance and course homologation data.

For the purposes of entry all racers must reference their club. They may reference a team if on a National, Training Centre or Nordiq Canada approved factory or regional team.

In order to participate in Nordiq Canada Point events, a skier must have a valid racing license issued by FIS/IPC, Nordiq Canada or NSF of another country or a Supporting Member Day License (SMDL) issued by Nordiq Canada. Biathletes and athletes from other Nordic disciplines must have a valid Nordiq Canada license or SMDL to compete.

FIS attributes FIS points to all competitors in the Open categories possessing a valid FIS race license.

6.3 Entry Fees

Entry Fees are the responsibility of the host club. The intent is for entry fees to be not so large as to discourage participation, while at the same time sufficient to ensure the financial viability of the event. OC's are encouraged to consider a lower entry fee for categories below the open category.

Due to the number of last-minute entries, OC's are encouraged to develop a progressive entry fee schedule that includes an early entry bonus and penalizes last minute entries within the context of the above paragraph.

Entries and fees should be in the hands of the OC within a reasonable time prior to the first competition day (3-4 days) to permit a Confirmation List to be published no later than 2 days prior to the event.

The Confirmation List must include:

- Skiers' name
- Current Nordiq Canada and/or FIS/IPC license #
- Year of Birth
- Entered competitions
- Applicable club and team names.

There will not be any refunds if athletes do not start.

*Nordiq Canada recommends no day of in-person onsite registration.

6.4 Complimentary Entries and Accommodation

The OC is at liberty to extend invitations to National Team, international athletes or training groups and to make complimentary arrangements for them.

6.5 Event Notice

The Event Notice must be produced in draft and forwarded to the TD for review no later than two months before the event. The final Event Notice should be available six weeks before the event. A copy of the Event Notice should be posted on the OC's website and the link provided to Nordiq Canada for listing on the national calendar on the Nordiq Canada website.

A race registration form should be posted on Zone4.

The Nordiq Canada Officials manual provides an example of an entry form (page A4-3).

For Nordiq Canada Tier II events, the registration form must request the Nordiq Canada license number. The registration form should also request contact information for an athletes' coach or team leader.

Event Notices must include a suitable cancellation and/or postponement clause.

6.6 Registration System

- A Nordiq Canada approved race management software package must be used.
- Club & Team names and spellings will be used as reported in the Club data base on the Nordiq Canada website.
- Skiers' names and spellings will be used as per the CPL submitted by Nordiq Canada to the OC.
- OC's are cautioned to respect privacy and must not permit entrants' e-mail addresses to be used for solicitation.
- Final confirmation lists must be published on the event web site a minimum of 48 hours before the first competition. This list should be published under the Club name and include the athletes name, Nordiq Canada license number, races entered and year of birth.
- The Race Notice should specify a Registration Deadline which should be no earlier than 6 days and no later than 3 days before the first competition.

6.7 Seeding for Tier II CPL Races

It is recommended that for the Senior and U20 M/W category of Tier II CPL races, the current CPL/PNCPL for both distance competitions and sprint competitions will be used. (For information refer to the Canada Points List Publications & Event policy document as well as the Para Canada Points List Publications & Event policy document on the Nordiq Canada website under Results/Points - CPL).

The most current CPL/PNCPL is available on the Nordiq Canada web site at nordiqcanada.ca.

The most current Sprint or Distance CPL must be used by the OC for all seeded competitions during an event weekend as defined in 1.2(b). The OC must use the Validation Function available on Zone 4 to verify Nordiq Canada License numbers and club/team affiliation. Please note that validation data is based on the last published points list, hence skiers reporting invalid licenses should be double checked directly on the Nordiq Canada License Confirmation List found at <https://nordiqcanada.ca/races/racing-license/nordiq-canada-race-license/> for the latest active skier lists.

For seeding of younger categories OC's are referred to the Nordiq Canada rules or host division guidelines.

6.8 Competition Formats

6.8.1 Interval Start Distance Races

The Distance CPL will be used when seeding all categories. Within each category skiers will be grouped based on the number of total skiers in the combined category. Start positions will then be randomly assigned within each group based on the CPL. The decision of the Jury will specify the order of start for each group. Athletes without CPL ranking will be assigned to a separate group and randomized.

As an alternative, skiers may be seeded in reverse order of Distance CPL and started as a group. Non-licensed skiers should start as a group in a less favourable position.

6.8.2 Mass Start Races

For the open men and open women categories, seeding and bib assignment will be by Distance CPL. The best skier on the CPL gets position one in the start grid. Those not on the CPL including those with a SMDL will be drawn as a group and placed behind the last CPL-listed skier. The start will be by chevron grid with positions assigned as shown in Appendix 4-9 of the Nordiq Canada Officials Manual.

6.8.3 Sprint Competitions

Sprint competitions will consist of a qualification round of all skiers in each category. Race categories and seeding may be combined on common distance courses.

The OC may modify the format of the heats to encourage athlete development and maximize participation in the heats. The format should be identified to coaches and athletes prior to the competition.

A separate group should be formed of those License holders without CPL and SMDL skiers. Start order will be per Jury decision.

For the purposes of breaking a tie in the case of 16th or 30th place in the sprint qualification, the Jury may elect to increase the accuracy of the timing interval to 1,000th of a second. Alternately 16th / or 30th place will go to the skier with the higher Sprint CPL points. If this fails to break the tie, the two skiers will be placed in the same heat – preferably Heat 2.

OC's are encouraged to run B finals prior to A finals at this level of competition to encourage skier development.

3 Minute Heats with B Final					4 Minute Heats with No B Final				
Heat	Start	Finish	Gap	Rest	Heat	Start	Finish	Gap	Rest
U18 Girls Q1	12:00	12:03	0:03		Sr Women Q1	12:00	12:04	0:04	
U18 Girls Q2	12:03	12:06	0:03		Sr Women Q2	12:04	12:08	0:04	
U18 Girls Q3	12:06	12:09			Sr Women Q3	12:08	12:12		
U18 Girls Q4	12:09	12:12			Sr Women Q4	12:12	12:16		

U18 Girls Q5	12:12	12:15			SR Women Q5	12:16	12:20		
U18 Boys Q1	12:15	12:18			Sr Men Q1	12:20	12:24		
U18 Boys Q2	12:18	12:21			Sr Men Q2	12:24	12:28		
U18 Boys Q3	12:21	12:21			Sr Men Q3	12:28	12:32		
U18 Boys Q4	12:24	12:24			Sr Men Q4	12:32	12:36		
U18 Boys Q5	12:27	12:30			Sr Men Q5	12:36	12:40		
U18 Girls S1	12:33	12:36	0:03	0:18	Sr Women S1	12:44	12:48	0:04	0:24
U18 Girls S2	12:36	12:39	0:03		Sr Women S2	12:48	12:52	0:04	
U18 Boys S1	12:42	12:45		0:12	Sr Men S1	12:54	12:58		0:14
U18 Boys S2	12:45	12:48			Sr Men S2	13:02	13:06		
U18 Girls BF	12:51	12:54	0:03	0:12					
U18 Girls AF	12:54	12:57	0:03		Sr Women A-F	13:06	13:10	0:04	0:14
U18 Boys BF	13:00	13:03		0:12					
U18 Boys AF	13:03	13:06			Sr Men A-F	13:18	13:22		0:12

This pattern can be adjusted if Open and Junior heats are run in conjunction with selection events. If significant change of course is required, the pairings could be changed.

The Gap between heat starts depends on the length of the course and comfort level of the start, finish and timing officials.

6.9 Team Captains Meeting (TCM)

A team captains meeting is not necessary, however email contact containing updated information is encouraged with participating coaches.

If a TCM is scheduled it should take place the evening prior to the event as per CCR section 305. At this time, the TD and Jury will be introduced. The TD will address the TCM, and make any points related to rules or rule changes that need to be emphasized for the event or for the first competition.

OC competitor lists should include:

- all skier withdrawals and confirm spelling;
- age subcategories;
- Canada points;
- Nordiq Canada licenses;
- Club and Team.

It is important to ensure at this time that juniors who are racing in the open category are annotated as juniors.

Start lists must clearly state the time of day that the competition starts and the time intervals after this start time at which individuals will have their starts.

7.0 Warming and Waxing

7.1 Warming and Waxing Facilities

Suitable waxing facilities must be provided. If indoor waxing facilities are available, they must have restricted access.

In order to protect the health of wax technicians, coaches, athletes and our environment, all Tier 2 competitions are governed by Nordiq Canada's No Fluoro wax guidelines which restricts the use of low, medium and high fluoro waxes for all categories.

If outdoor facilities are used, the OC must provide for power outlets for teams within close proximity to the start area.

If portable trailers and permanent wax cabins are used, they should include fans in each facility to actively remove dangerous vapours. Fans should be rated to move 180 – 200 cfm for 300 sq/ft and be capable of completely recycling the air in the wax facility each night.

Team technicians should be encouraged to wear at a minimum a half mask respirator rated for Chemical Clean-up, Grinding, Masonry or Painting Spray units that provide protection against organic vapors and a minimum 95% efficiency against non-oil particulate aerosols. N95 (95% Efficient Protection Against Non-Oil Particulates). Full face masks will protect eyes from dangerous vapours and dust. The use of disposable gloves is also recommended as the skin represents a secondary source of exposure to toxins.

https://www.uline.ca/BL_992/3M-6000-Reusable-Respirators

<https://www.3m-scott.com/world/>

7.2 Wax Testing

A suitable hill for glide testing should be within one (1) km of the stadium area. A glide area may be on the racecourse if suitable width is available.

A warm-up track near to the start with a small uphill is required. Both the glide testing area and the warm-up tracks should be groomed and prepared in the same manner and at the same time as the rest of the competition track in order to simulate race conditions.

8.0 Timekeeping and Data Processing

8.1 Timing Standards/ Results Production

A Nordiq Canada approved race management software package must be used. Zone 4 is recommended.

Competition officials who interface with the software package must have used the software in combination with other timing equipment at a previous event and be very familiar with it.

8.2 Timing Equipment

Accurate Official Results that conform to Nordiq Canada protocol as outlined in 9.3 are expected. In addition, Nordiq Canada strongly recommends that start/finish times be electronically generated with a completely independent back-up system.

There should be an enclosed and heated timing building of some type.

For interval start races and sprint qualification an electronic start gate should be used at the start in conjunction with a large format start clock.

At the finish, an electronic beam signal is recommended to capture the time of the athlete as they cross the finish line. In some situations, a manual push button signal may be used to electronically generate a start/finish signal.

A display clock as a visual aid to tell skiers when to start is also recommended by Nordiq Canada.

8.3 Results

The publication of the results of competitions should be consistent with the format outlined below.

Official Results must show the members of the Jury and the following:

- Distance, Technique and Category;
- Rank;
- Bib;
- Name;
- Year of Birth;
- Subcategory (for combined results);
- Sub rank (for combined results);
- Nordiq Canada License number (or SMDL ID);
- Club and/or Team;
- Total time.

The FIS License number must also appear on the result lists for the Open categories at FIS sanctioned events.

1/5

The name of the race file posted on Zone4 should include the Event name, followed by the race format/ technique and designate whether the posting is a start list or final result (e.g. Frozen Thunder Interval. CI Final Results)

Nordiq Canada currently recognizes one race management software packages - Zone 4 - as being capable of the required formats.

Start List and Results publications by the OC must include the following:

On site – hardcopy - published on a notice board in accordance with timing as specified in the Nordiq Canada Rules. Final results should be posted on Zone4 and noted as “Final”

Live-streaming of results is not expected at Tier II events but is encouraged if the OC has the capability to provide them. These results should be considered “interim” only and should not be confused with Unofficial or Officials results postings.

8.4 Competition Points

Canada Points (CPL)/Paranordic Points (PNCPL) will be calculated for all competitions and will be entered into the CPL/PNCPL ranking system as per the rules of the CPL/PNCPL. Nordiq Canada License numbers must appear on all final results reports in addition to the race distance and courses used. Policy and management of the CPL/PNCPL system is the responsibility of the Nordiq Canada High Performance Committee and Paranordic Committee.

If race categories are not combined for common distance starts Canada Points will be based off of the top skiers in each race category. Results should be published in the combined format with rank and sub-rank by category fields visible.

For FIS-sanctioned competitions – i.e. individual competitions in the Open categories - the TD, in cooperation with the EC, is responsible for completing the online FIS TD Report and confirming the Race Penalty calculations.

FIS points will be calculated for all individual competitions in the Open categories (for FIS license holders only).

The FIS points calculations in appropriate format (xml) will be submitted electronically by the EC to the FIS online system.

9.0 Awards

9.1 Awards Presentations

Awards should be presented after each competition category within 20 minutes after the last racer crosses the finish line based on the unofficial results. Racers should not be made to wait much longer than that without showering or changing into dry clothes.

If awards cannot be presented within the above timeframe, the OC must organize an awards and medal ceremony in a location and specified time convenient to the athletes. It is recommended the ceremony take place in a public location close to the athletes’ lodgings and in connection with other community activities where possible.

The normal order of awards presentation is as follows: 3rd place, 2nd place and 1st place. Categories and sub categories should be presented as groups in turn, allowing for the greatest amount of camaraderie between skiers who have competed against each other.

In situations where awards are given off site, a simple flower giving ceremony to the top three skiers may be conducted immediately following the conclusion of a category.

Where a podium is used, it must be accessible to the para skie
