Situations may arise, such as COVID-19, that do not allow these criteria to be modified or applied as written due to time constraints or other exceptional and unforeseen circumstances. In such situations, any decision, including nomination decisions, will be made by the individual(s) with decision-making authority, as stated in this criteria, in consultation with the relevant individual(s) or committee(s) (as applicable), and in accordance with the stated performance objectives and selection philosophy and approach as stated herein. Should it be necessary to make any decision in this manner, Nordiq Canada will communicate with all affected individuals as soon as possible.

1. General Information

- 1.** FIS Objectives: To assist in athlete development for participation in the World Cup (WC).
- 2.** Nordiq Canada Objectives: To create competitive opportunities based on results from select major domestic competitions (Trials events and Canadian Ski National Championships) to provide WC starts and stimulate the transition from domestic to future World Cup, World Ski Championships and Olympic Winter Games medalists.
- 3.** Nations can apply to FIS to designate as a “FIS Continental Cup Series” domestic race events that meet FIS criteria. In receiving official designation for such a series, host nations receive additional World Cup quota. Races that have received this designation in Canada are called Nordiq Cups.
- 4.** These additional quotas are nominative, the athletes cannot be substituted if they cannot start due to force majeure.
- 5.** The athletes have to meet the World Cup entry requirements (see [FIS World Cup Rules](#) point 2.1).
- 6.** General principles about qualification for the World Cup can be found in the World Cup rules (see [FIS World Cup Rules](#)).
- 7.** For the 2022-23 season, the Nordiq Cups, World Ski Championship/World JR/U23 Ski Championship trials race, and the Canadian Ski National Championships competitions referenced in 2.0 are designated as Canada’s FIS Continental Cup Series (Nordiq Cups). All designated competitions will be FIS-sanctioned. Competitors with FIS licenses, entered in the open classes of individual races, will be eligible for points allocated for the series standings and aggregate winners.
- 8.** Nordiq Canada’s High Performance Director (HPD) reserves the right to decide whether Canada will utilize these additional World Cup quota positions allocated by FIS in

consideration of Canada's FIS Continental Cup Series. The decision will be based on factors that include:

- a. Nordiq Canada 2022-23 Competition Trip Selection Criteria Sections 1 and 2
- b. World Cup scheduling (i.e. competition formats, distances, and locations) and the athlete's ability to compete in the scheduled events.

9. Nordiq Canada will only consider for selection members in good standing who have a valid Canadian passport, a valid Nordiq Canada license, and a valid FIS license and who meet FIS minimum eligibility standards referenced in the [FIS World Cup rules](#).
10. The COC series winners will receive travel subsidies according to article 6.2 of the [FIS World Cup rules](#). All other expenses, including the daily Nordiq Canada support fee of \$150/day will be the responsibility of the athlete.
