SEEDING

The most current Canadian Points List (CPL) for both distance and sprint competitions will be used for the purpose of seeding all categories. CCUNC categories will be included in the combined open competitions. Foreign skiers will be seeded as determined by the Jury regarding the competitors CPL points. If a foreign skier has no CPL ranking, the Jury will use its discretion in seeding the skier. For special seeding requests from within Canada, please see section 6.9 of the TP.

USSA skiers with FIS Points are included in the Canada Points List.

Sprint race: Senior and U20 skiers will be seeded together by gender for the Sprint Qualifying round in order of most recent Sprint CPL with the skier with highest points starting first. Similarly, U18 and U16 skiers will be seeded together by gender for their Sprint Qualifying round. Athletes without CPL ranking will have their starting order randomly drawn in a separate group and will start behind the seeded group.

Distance races: Categories racing common distances will be combined for seeding purposes where possible based on race courses used. Within each category or combined categories, skiers will be ranked based on distance CPL. Groupings will then be formed based on the number of skiers in the combined category. Start positions will be randomly assigned within each group. The decision of the Jury will specify the order of start of each group. Athletes without CPL ranking will be assigned to a separate group and randomized. The number of groups will be as follows:

- 10 and less participants: 1 group
- 11-20 participants: 2 groups
- 21-30 participants: 3 groups
- 31 participants and more: 4 groups

UNIVERSITY SKIERS

The CCUNC category is integrated into the Open category. In addition to normal eligibility, athletes competing in the CCUNC category must be attending school full time – meaning enrolled in a minimum of 3 courses per semester for 2 semesters in the most recent 12-month period. To be considered please select the university/College/CEGEP check box when you register and then send your proof of university registration (course schedule, registration letter) to registrar.registraire@coupecandycanecup.ca. If we do not receive the proof by Dec. 11 and/or it does not meet the requirements you will not be listed as part of the category.

The top three athletes for each gender in the Open CCUNC category will receive awards. In the case of sprints, the sprint qualification rank will determine the CCUNC category winners in order to permit skiers to compete in their designated sub-categories during the heats.

TEAM CAPTAIN MEETING

Team Captains' Meetings will be held on 12, and 13 December 2019 at 17:00 in the lodge at Nakkertok South Nordic Centre. If conditions require, a TCM will be held on 14 December 2019 at 17:00. Please note that the presentations will be available after the meeting in the Zone4 event page and in the website

BIB PICK-UP

Bib pick-up will take place in the Race office (Barn, upstairs), 07:30-09:00 on each race day. For the Friday qualifier for U18 and U16 categories, bibs can also be picked up from 11:30 to 13:30. If both "Club" and "Team" fields are filled in during the Zone4 registration process, skiers will be asked to choose whether their bib will be distributed according to "Club" or "Team". Only coaches can pick up the bibs. Clubs, teams and training centers will be charged a bib replacement fee of \$50 for each missing bib at the end of each race.

Coaches' bibs

Coach bibs and privileges issued by Nordiq Canada are in effect at all NorAm and National Championship competitions designated as distance events. **The Jury may limit access to the course at any time due to snow, weather or course conditions.**

The Zone4 link for live registrations is now open at: <https://zone4.ca/register.asp?id=22283>

TRANSPONDERS

Transponders will be used for all races (including sprint heats). They will be distributed in the area behind the start.

Clubs, teams and training centers will be charged a transponder replacement fee of \$50 for each missing transponder at the end of each race.

TRAINING

Official training periods are as follows:

- Thursday December 12, 11:00-15:00: Sprint course
- Friday December 13, ~15:15-16:30: Distance course
- Saturday December 14, ~15:15-16:30: Distance course

Unofficial training will be also available on December 11, 2019 but the course and the stadium will not be marked and groomed specifically for the Friday, December 13, 2019 race. Trails access fees will be in force for the unofficial training.

WARM-UP & SKI TESTING

As it is an early season race, there is a strong probability that the trail network used for the race will only be covered with artificial snow, with limited snow in other areas of the facility. The priority will be to prepare the best possible race trails and snow coverage of warm-up and ski testing areas might be limited. More details will be available at the Team Captains Meetings, however athletes and coaches should be prepared to use rock skis and/or prepare for running warm-ups.

COURSE AND STADIUM MAPS

Links to course and stadium maps will be available by December 11 in the Zone4 event page and on the website.

The race will principally be run on the "Nakkertrak" 2.5 km training and race loop at Nakkertok, supported by a hydranted snowmaking system, 2 fan guns and 5 lances. At full length the total climb is 74 m., with various layout options, including climbs of 18 and 19 meters.

FEEDING

Food and beverages will be available at the finish.

WAXING

This event is a combined Tier 1 and Tier 2 event.

Tier 1 Categories are the Senior/U20/CCUNC categories and will not have any waxing restrictions.

For U18, U16, U14 categories the Haywood NorAm Candy Cane Cup is a low-fluoro event

Nordiq Canada has implemented a low-fluoro waxing policy for all Tier 2 events across Canada. The U18, U16, and U14 categories will NOT be combined with the Senior and U20 categories at this event thus they are Tier 2 and the low-fluoro policy applies.

Guideline on the Use of Fluoro Glide Waxes

Use of non-fluoro (NF) or low fluoro (LF) glide waxes only. High fluoro (HF) or Medium Fluoro (MF) glide waxes, including HF or MF powders, pucks, blocks, and liquids are NOT permitted. Cold weather powder additives and hardeners are NOT permitted. The adherence to this guideline is self-governed and is the responsibility of the coaches, parents, athletes and wax technicians. Thank you for helping us protect the health of our wax teams, athletes and the environment and making this a fair competition for all.

PROTESTS

Protests must be submitted in accordance with CCR 361.
