

## Nordiq Canada Homologation Application:

This document represents an agreement between the identified club or organization and Nordiq Canada to seek FIS homologation as outlined in the Nordiq Canada Homologation Guidelines for the specific courses identified below.

Upon receipt of this signed application Nordiq Canada will issue an invoice by email based on the costs outlined below plus GST. Once processed, a Homologation Inspector will be assigned to your project. If the initial plan outlined below should change prior to the final submission to FIS then adjustments will be made accordingly through either an additional invoice or a refund. For more information please contact Dave Dyer, Nordiq Canada Director of Events. Email: [ddyer@nordiqcanada.ca](mailto:ddyer@nordiqcanada.ca)

Please note that the fees assigned to this agreement do not include the expenses and costs associated with the visits by your appointed Homologation Inspector (HI). The HI will invoice the club separately. These additional costs are explained in the Nordiq Canada Homologation Guidelines and any travel by personal vehicle can be charged in accordance with Nordiq Canada's Travel and Expense Policy 2.7.2, currently set at \$.45/km.
