Nordiq Canada is carefully following the evolution of the coronavirus on the global and domestic level and how it may impact the criteria for Para-Nordic Trip Team selection. Situations related to the coronavirus pandemic may arise that require these criteria to be modified. Any modifications will be made promptly and as often as required following developments that directly impact the criteria. In such circumstances, any modifications will be communicated to all affected individuals as soon as possible.

Further, situations may arise that do not allow these criteria to be modified or applied as written due to time constraints or other exceptional and unforeseen circumstances. In such situations, any decision, including nomination decisions, will be made by the individual(s) with decision-making authority, as stated in this criteria, in consultation with the relevant individual(s) or committee(s) (as applicable), and in accordance with the stated performance objectives and selection philosophy and approach as stated herein. Should it be necessary to make any decision in this manner, Nordiq Canada will communicate with all affected individuals as soon as possible.
