- a. The athlete must be a Canadian citizen or permanent resident of Canada at the beginning of the carding cycle the athlete is being nominated. Permanent residents must live in Canada for the full year preceding the carding cycle for which the athlete is being considered for AAP support.
  - b. The athlete must be available to represent Canada in major international competitions, including World Championships and Olympic Winter Games. Further, under the eligibility requirements of the sport's International Federation (IF) as it pertains to citizenship or residency status, the athlete must be eligible to represent Canada at major international competitions, including World Championships, at the beginning of the carding cycle for which the athlete is being nominated.
  - c. For athletes who have been permanent residents of Canada for three years or more, continued eligibility to receive AAP support is contingent on the athlete becoming eligible to represent Canada at the Olympic Winter Games.
  - d. The athlete must meet the published NSO approved, AAP compliant sport specific carding criteria.
  - e. The athlete must participate in national team preparatory and annual training programs as outlined by the NST coaching staff and HPD.

### **3. Curtailment of Training and Competition for Health-Related Reasons (COH)**

- 3.1. Nordiq Canada will consider nominating Athletes for an injury card in accordance with section 9.1.3 of the Sport Canada AAP policy. The basic philosophy for selecting an athlete by granting an injury or illness request is that all things being equal, the athlete nominated has clearly demonstrated superior performances in previous competition to other athletes being considered for an SR1, SR2, SR/C1 or D nomination. An injury or illness request is considered as the last means by which an athlete can earn selection and is intended to provide for exceptional circumstances outside the normal selection criteria rather than being part of the normal means by which an athlete can earn selection. This provision only applies when athlete performance is compromised because they have not been able to train or compete for an extended period and has a positive prognosis within 8 to 12 months.
- 3.2. A SR1/SR2/SR or D carded athlete who met 2020-21 NST objective criteria based on results from 2019-20, and not through a ranking list nomination, who at the end of the Carding cycle, has not achieved the standard required for the renewal of Carding status strictly because of health-related reasons, may be considered for re-nomination for the upcoming year provided the following conditions are met:
- a. An Athlete must, within 7 days following the incident or occurrence, submit to the HPD a report which includes:

- i. Certificate of diagnosis;
    - ii. consistent communication of the athlete's health and performance status to the HPD or designated Nordiq Canada coaching or IST staff during the time the athlete is unable to train or compete;
    - iii. documentation confirming diagnosis by a licensed, relevant and medical practitioner;
    - iv. a return to training and competition plan for the current and upcoming season;
    - v. supporting documentation of the athlete's treatment by an accredited professional (e.g. physiotherapist/ massage) that supports a return to training and competition plan.
  - b. In the case of injury or illness, no Carding nominations will be made for injuries that are determined by the HPD in consultation with medical professionals to be career-ending.
  - c. If an Athlete competes in a qualifying event, they may not invoke Section 3 in respect to the qualifying event in which he or she competed. The intention of this provision is to ensure that Athletes who are injured, suffering from an illness, or medical condition do not compete, which could cause further ill health, or harm. If an Athlete does compete, they must accept the race result they have achieved.
- 3.3. The Athlete may be nominated for a Senior Card or Development Card on the grounds of injury, a medical condition (including pregnancy) or illness at the sole discretion of the HPD based on the following factors:
- a. the number of Cards available;
  - b. the nature and details of the diagnosis and prognosis;
  - c. assessment and training data provided by the Athlete that is verifiable by the discipline coach and IST;
  - d. evidence of the Athlete's level of performance prior to injury;
  - e. the strength of the Athlete's rehabilitation and training plan as evaluated by the HPD;
  - f. the advice of medical experts provided to the HPD; and
  - g. the realistic expectation that the Athlete can return to competition ready performance and continue to demonstrate the potential to perform at the Top-8 level and progress toward the podium.
  - h. Documentation must be submitted to the HPD by **April 4, 2021 11:59 PM MST**.

## 4. Types of Cards and Funding Allocation

- 4.1. Nordiq Canada is awarded the equivalent of 17 Senior Cards or \$360,060 in AAP funding for the June 1, 2021 to May 31, 2022 Carding cycle. Sport Canada reviews its carding allocations regularly therefore this amount is subject to change.

- 4.2. There are two types of card: Senior (SR) and Development (D).
- 4.3. A minimum 4 months of carding support must be available to nominate an athlete for AAP.
- 4.4. Senior cards are \$21,180 (\$1,765 /month x 12). C1 cards are \$12,720 (\$1,060 /month x 12). Development cards are \$12,720 (\$1,060 /month x 12).
- 4.5. **Senior Cards** are awarded on two sets of criteria:
  - a. International Criteria (SR1/SR2). Sport Canada sets these criteria.
    - i. Senior cards based on international criteria are awarded to recognize outstanding performance at the World Senior Championships or Olympic Winter Games.
    - ii. Athletes achieving the criteria are eligible for two years of AAP support. The first carding year is a SR1 card and second is a SR2 card. The second year is subject to the athlete meeting requirements in 2.0 Eligibility, completing the online anti-doping courses, signing an Athlete NSO agreement, selection to the National Team and adhering to an HPD approved training program.

*Note: No athlete will be nominated for SR1 cards immediately following a season where there is no Olympic Winter Games or World Ski Championships.*
  - b. National Criteria (SR/C1)

- 4.6. Eight (8) years is the maximum an athlete will be carded at the senior level based on national criteria. After which time, Sport Canada will require a comprehensive thoroughly documented review of the athlete's performance over the past eight years to demonstrate progress toward meeting the international criteria, which then warrants nomination of "Senior National" card status for an additional year. This process must be followed for all subsequent years that the athlete is nominated at this level.
- 4.7. **Development Cards** are to meet the development needs of younger athletes who clearly demonstrate the potential to achieve the Senior card international criteria. Development cards are awarded for one year.
- 4.8. Three years (3) is the maximum an athlete will be carded at the development level (this criterion applies once the athlete reaches the post-junior category). After which

time, Sport Canada will require a comprehensive document review of the athlete's performance demonstrating progress toward meeting the senior international criteria, which then may warrant nomination of "Development" card status for an additional year at this level.

- 4.9. Athletes carded at the Senior card levels (SR1, SR2, SR and C1) are not eligible for D cards. An exception can be made for the U23 age category when carded at the senior levels.
